

THINK+change, in partnership with Realm of Caring, presents

# FINDING HEALTH

A Conference on the Intersection between Disability and Nutrition  
July 28-29, 2018  
Aurora, Colorado

## **Nutrition Faculty - Meet Marva Jolly, PE, MNT, HTP, HTAP**

Marva L. Jolly is a Master Nutrition Therapist and also graduated from the University of Colorado at Denver in 1994 with a BS in Civil Engineering. For more than 13 years, she practiced as a licensed Civil Engineer but did not feel fulfilled in her work. After being laid off in 2011, Marva began seeking a new fulfilling career. Her personal challenges with autoimmune diseases and multiple food sensitivities inspired her to pursue a career in Nutrition Therapy. She completed the Master Nutrition Therapist program at Nutrition Therapy Institute in Denver in 2016. Marva's approach to nutrition emphasizes the importance of evaluating each individual from a holistic perspective to balance health. Marva brings her knowledge, personal experience, and analytical mind to enable her to compassionately yet successfully support her clients through nutrition. Marva currently has a private practice in Englewood where she works one-on-one with individuals and families. She also partners with Innovative Chiropractic in Denver, Colorado working with these clients to improve health through nutrition. Marva also enjoys giving talks on nutrition related topics and teaching cooking classes at local venues to educate others on the amazing and powerful effect nutrition can have on overall health. Marva is also a member of the National Association of Nutrition Professionals (NANP).
