About the Forum

The aim of this major two-day event is to **promote private sector investments in decentralised energy access in Zambia**. Participants will include Zambian and international private sector businesses and investors, as well as high-level representatives from the Zambian government and the EU and other support programmes.

Highlights of the event:

- **Showcasing financial and technical instruments supporting off-grid renewable energy projects in Zambia**
- **Providing a platform for public-private sector dialogue** around market conditions and key policy initiatives, including the role of communities in the roll-out of electricity access initiatives
- **Facilitating business networking** through structured B2B matchmaking
- **Offering an opportunity for private sector companies to market their off-grid solutions, expertise and products in Zambia**

About the Off-Grid Exhibition

In parallel with the Forum, ARE and GOGLA will organise an off-grid exhibition to give the private sector companies and investors, as well other stakeholders in the off-grid energy sector an opportunity to showcase products/projects and expertise. 10 exhibition spaces will be available.

Each exhibition space will include:

- 6 m² exhibition space
- One table
- Two chairs
- The possibility to bring your own marketing materials and banners to showcase in this area

Price per exhibition space: EUR 750
