Important research needs important people.

Adults with Down syndrome are invited to join the ABC-DS study.

This research study will look to identify early signs that may indicate Alzheimer's disease. Help make a difference.

ABC-DS
Alzheimer Biomarker Consortium-Down Syndrome

We welcome participants who:

- Have Down syndrome and are 25 years or older.
- Are accompanied by parent, caregiver, or legal guardian.

Participants will:

- Make visits to our site to complete thinking tests, brain imaging, and other medical tests.
- Complete questionnaires at each visit.
- Be compensated for their travel and time.
