Additional Facts

Since December 24, 2025 five members of New California State have died under unusual circumstances. A close examination of the records indicate several of the thirteen individuals have identical causes of death. Strong circumstantial information from witnesses and others concerned strongly suggest the above 13 deaths may in fact been related and deliberate.

Join the Patriots of the New California State Movement as they make New California State the 51st State of the Union of States known as United States of America. New California is a new state in development exercising its Constitutional Right to form from the State of California as codified under Article IV Sections 3 and 4 of the United States Constitution of the United States Declaration of Independence and the Bill of Rights.
