\$50 Reward for Completing Health Assessment!

February 7, 2017

Encourage your clients to start 2017 right by filling out their health assessment on prevea360.com/livinghealthy. It only takes about ten minutes, and they get a \$50 gift card for their effort!

And that's just the start. Members can easily earn a total reward value of \$150 for participating in the Living Healthy program. More importantly, participants get a comprehensive summary of their current health status and helpful advice on how to stay healthy.

The Living Healthy program is open to all Prevea360 Health Plan members and their spouses. Adult dependents may also participate in 2017, earning up to \$100 in rewards for completing healthy activities.*

So encourage your clients to sign up online and take advantage of the tools that allow them to track their health progress and earn rewards for doing so. For example, note that you went in for your annual health checkup, and that counts toward your rewards. Same deal for your preventive dental visits. You got your flu vaccine? Excellent. That counts too, as do many other efforts.

*Only Prevea360 Health Plan members, ages 18 and older, are eligible for Living Healthy rewards. However, adult dependents are only eligible for rewards for activities other than the health assessment, due to government regulations effective in 2017.
