

We're Changing our Website Address for All of Your USP® Connector Products and Resources.

In December we announced that we're relocating our USPConnectors.com website.

Same products. Different website: MiTek-US.com.

Changes are coming that will provide you with access to more MiTek builder products and software solutions. You will see our company name on the website – MiTek, but with the same USP® connectors, products and resources that you know and trust. The site will have improved navigation, additional content and resources.

USPConnectors.com will move to MiTek-US.com.

You still have some time to view information on USPconnectors.com where all the content remains the same. But we encourage you to set your bookmarks to [MiTek-US.com](https://www.mitek-us.com) website address where all your customer service, product, software and resource needs are available.

USP Structural Connectors are designed and manufactured by MiTek. If you have any questions, please call customer service at 1-800-328-5934
