

SRM University is looking for Scientific Writers

The department of Medical Research at SRM Medical Collage Hospital and Research Center is looking for bright and enterprising scientific writers, with good interpersonal skills. Requirements: The potential candidates must have an MD or PhD degree with post-doctoral experience in the interdisciplinary field of Biomedical Sciences. Further desirable qualities include: Proven scientific writing skills, self-starters. The main responsibility of the scientific writers will be to increase the research output of the clinical fraternity as well as non-medical staff of the SRM Medical Health Sciences (MHS). They will also help SRM Institute of Science and Technology build successful industrial collaborations that will cater to translational research with community outreach and aid the commercialisation of medical research. Following are the key roles of the scientific writers:

1. To help the Dean, Research (MHS) with submissions of Institutional Grants to nodal agencies of Government of India.
2. To ensure faster turnover rates of publications from students (at both Undergraduate and Postgraduate level), scholars and faculty of MHS.
3. To assist in editing manuscript for language, content as well as formatting as per journal requirement.
4. To liaison with clinicians and help them in writing case reports, original articles, systematic reviews and meta-analysis.
5. To communicate with journals for the submission, revision and proof-reading process and to coordinate with the corresponding author throughout the process.
6. To identify suitable journals for a given manuscript.
7. To be well versed with the latest guidelines (both local and international) related to publications e.g. COPE, ICMJE, ICMR.

Scientific writers will receive a competitive salary package and it will be at par with the Research Assistant Professors/Re-entry fellows being hired by SRM MHS, KTR. To apply, send your CV to krithikr1@srmist.edu.in or rajivj@srmist.edu.in
