

# SUMMER IMAGINEERING

**REGISTRATION is OPEN**

The San Ramon Valley Education Foundation (SRVEF) is proud to offer Imagineering, a beyond school enrichment program for SRVUSD students. The goal of Imagineering is to spark student interest in choosing STEAM (Science, Technology, Engineering, Art & Math) classes in middle and high school.

This Summer we will be offering a variety of classes that will appeal to young scientists, engineers, coders, zoologists, programmers, chemists, techies, artists and mathematicians starting June 16 and running through July 18, 2025. With weeklong classes for incoming students from 2nd through high school you are certain to find something for your student. Offered classes may include:

- Biotech Unveiled: Concepts, Tools, & Applications
- Brushstrokes with Ms. Bhui
- Chemistry of Suds, Smells and Bubbles
- Creative Coding with O-mazing Ozobots!
- Creative Writing and Design
- CSI Danville: The Case of the Murdered Mayor
- Culinary Arts: Sweet Summer Creations
- Culinary Arts: A Culinary Journey - Travel Through Food
- Level Up Your Money Game This Summer: Finance & Economic Literacy
- Lights Camera Action!: Stop Motion Animation
- Medical Interventions
- Ocean Odyssey: Exploring California's Marine Wonders
- Public Speaking: Become a Confident Speaker
- Robo Racers: Unleash Your Robo Racer Inner Engineer with Python and Pi
- Space Odyssey!!
- Tinker to Techie: Hands-on Coding Creations with Raspberry Pi & Python (Intro)

And for your student performer, we have SHREK THE MUSICAL JR, a five-week theatre production class where students will perform in and design a full-length musical developing and enhancing their skills in performing arts, visual arts, and sound engineering.
