

San Francisco Utility Undergrounding Study: Community Meeting

Wednesday, September 18, 2 p.m.
Koret Auditorium
Main Library, 100 Larkin St.

Please join San Francisco Public Works and Telamon Engineering for an update on the progress of a recently commissioned Utility Undergrounding Master Plan Study.

This study is the preliminary step in the potential development of a comprehensive Master Plan for the undergrounding of overhead utility wires in San Francisco.

We invite everyone interested in undergrounding utilities in San Francisco to attend this session to learn about the purpose and goals of the Utility Undergrounding Master Plan Study. The final report will be presented to the San Francisco Board of Supervisors in late 2019.
