

# LEADERS ON BOARD

Nonprofit organizations rely on volunteer board members to assist in delivering their mission. Corporations encourage employees to get involved in their communities. Connecting the two is a win-win for all.

Board service has multiple benefits including:

- ➔ *Promote social responsibility*
- ➔ *Expand your professional network*
- ➔ *Encourage team participation and communication skills*
- ➔ *Strengthen your project and team management skills*

*"The course was excellent. This should be mandatory training for all board members on nonprofit boards."*

*"I was interested in board service but felt unprepared. This program provided the tools and the confidence I needed to pursue my goal."*

Leaders on Board provides a six week interactive training program that covers the topics needed to be prepared to serve on a nonprofit board or improve impact for your current board service.

Upon completion of the program, participants will receive a "Certificate of Completion" and have the opportunity to meet with area nonprofit executives to look for a potential board match. In addition, a board mentoring option allows those completing the program to continue to seek advice and support.
