

Mental Health Program

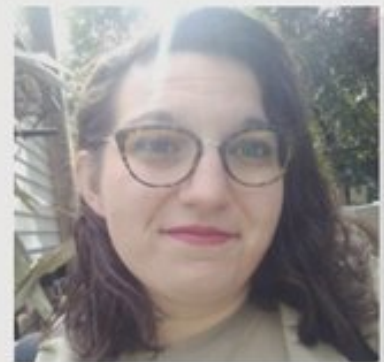

We offer low-fee (\$45-\$65) therapeutic services for children, adults, and families which are trauma-informed, fat positive, queer-affirming, poly-affirming, and operate from a social justice framework.

Therapy Fund

Please consider donating to help us continue offering low-cost services for marginalized communities!

Our mission is to make affirming therapy affordable for everyone who needs it.

All donations to our therapy program are tax-deductible and go directly to our client's mental health care costs, helping them get the support they urgently need.
