

*You are cordially invited to a program offered by
The Bux-Mont Faith Community Nursing Network Advisory Council*

Climate changes, the state of the environmental health of our planet and how all of this affects us as individuals and as a society, is a very popular topic. We see this in all forms of media, as well as experience in our daily lives.

Join us for a presentation on **“Micro-Plastics: How They Affect You and Our Environment.”** Learn the impact regarding micro-plastics, where do they come from, what is the role of micro-plastics in environmental changes, and what we can do about them.

Our guest speaker will be **Edward Ketyer, M.D., F.A.A.P., President,**
Physicians for Social Responsibility Pennsylvania.

Dr. Ned Ketyer is a Pittsburgh, Pennsylvania-area pediatrician, who retired in 2017 after having 26 years in private practice.

Besides serving as President for the Physician for Social Responsibility PA, Ned also serves as Medical Advisor on The AAP Council on Environmental Health and Climate Change Environmental Health Project. As the Medical Advisor for the Environmental Health Project, his work includes bringing attention to the health impacts of fracking and petro-chemicals in the Marcellus Shale gas patch.
