

Advocates & Community Partners

Big changes are coming to the **SNAP Program** starting September 1, 2025. Without action, SNAP recipients may start to lose their benefits in December 2025 unless they file a medical exemption form or prove they are meeting the work rules.

You can help by sharing the [medical exemption form](#) with your clients or sending them to the **VNA Navigator Program** to further help determine continued eligibility and access to the SNAP Program.

Services are offered in person or by phone. Please contact us at **1-800-591-8234** or register online.
