

# BEYOND AWARENESS: A TWO-PART JOURNEY INTO CULTURAL HUMILITY BEST PRACTICES

In this two-part training program, participants will explore the core principles of cultural humility as a lifelong practice rather than a one-time achievement (Part I). Through interactive dialogue, and reflection exercises, learners will examine how self-awareness, openness, and a willingness to learn from others create more equitable, respectful, and client-centered services.

Building on the concepts from Part I, this second 90-minute session focuses on translating cultural humility into actionable skills for daily practice. Participants will engage in scenario-based problem solving, and collaborative discussions to address real-world challenges such as navigating cultural misunderstandings, addressing systemic inequities, and advocating for client needs.
