

This Month's Topic: No Wrong Door Approach.
Presenters: Brandy Bauer – Director, Mippa Resource Center – National Council on Aging and Pearl Barnett – Deputy Director of Operations – Advancing States

No Wrong Door is an approach to service organizations that provide individuals with or links

them to appropriate service interventions regardless of where they enter the system of care. This principle commits all service agencies to respond to the individual's stated and assessed needs with appropriate treatment or supportive linkage with programs capable of meeting the consumer's needs. The PA Link is dedicated to this approach.
