

Bridging the Gap: The Need for Safe, Warm, and Dry Space for the Unhoused

For unhoused persons, there is a need to have a safe and legal space protected from the weather. There are cold blue shelters for weather emergencies, but few warm places to go and connect with other resources at other times. ***This is a crisis for too many.*** Let's discuss the issue and work together to identify solutions and act together for change!

There will be a panel discussion to learn more about the situation people are facing followed by a moderated discussion for all to contribute towards.

- ✓ Hear about the challenges unhoused persons face to survive beyond an emergency code blue shelter.
- ✓ Learn from service providers the need versus the current capacity.
- ✓ Discuss the role of community, organizations, and government in bringing supportive resources together to support those in need.

Hosted by

B.J. Breish and Meg Curie Teoh
Thursday, December 14th 7 PM
Lansdale Borough Hall
1 Vine St, Lansdale, PA 19446
