

3D Printing Expo

April 18 & 19, 2024

10am to 5pm

**Come to the Newtown Campus Linksz Pavilion
for a 3D Printing/Additive Manufacturing Expo**

Witness the revolution of additive manufacturing at the Bucks County Community College expo. Discover how 3D printing is transforming industries, from aerospace to healthcare, and take a peek into the future of production and design. Don't miss out on the opportunity to be inspired, learn from the experts, and connect with the community at the leading edge of technology. Join us to shape the future together.

Meet representatives from the major 3D printer companies

See examples of what these machines can create

Fuel your entrepreneurial spirit

Register to attend at Bucks.edu/3dexpo
