

Mental Health Program

Our mission is to make affirming therapy affordable for everyone.

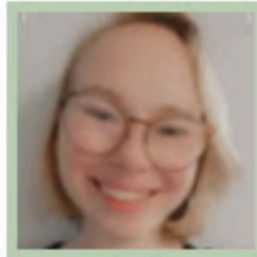

We offer low-fee (\$45-\$65) therapeutic services for children, adults, and families which are trauma-informed, fat positive, queer-affirming, poly-affirming, and operate from a social justice framework.

Therapy Fund

You can give the gift of mental wellness.

All donations to our therapy program go directly to our client's mental health care costs. Your donation makes an immediate difference in the lives of our clients.

Every hour of therapy can help to turn someone's life around.

Please consider donating to help us continue offering low-cost services for marginalized communities!
