The Enneagram is a map of human growth and development which combines the wisdom of the sacred traditions and modern psychology to describe nine personality types and how they interact with one another. Each type has different inner motivations and patterns of thinking, feeling and acting which result in unique life strategies. No Enneatype is better or more effective than another, yet they differ radically in point of view.

Prior to participating, it is highly recommended that participants take the Self-Assessment Inventory (will be emailed to you when you register) and read ***The Essential Enneagram: The Definitive Personality Test and Self-Discovery Guide***, by **David N. Daniels, M.D. and Virginia A. Price, Ph.D.** Call 928-282-4457 for more information.

Robin is a spiritual director and certified Enneagram teacher in the Narrative Tradition who leads workshops and works with individuals and couples doing typing interviews and examining the character structure of type. She is a Founding Member of the Arizona Enneagram Association and has run an Enneagram Study Group in Sedona since 2006.
