

## MSD MEMBER SPOTLIGHT

**Sumar Hayan, MD**

**Joined MSD: June 2, 2022**

***SPECIALTY:*** Family Medicine Resident

***LOCATION:*** Bayhealth

**What prompted you to decide to join MSD?**

I would appreciate the opportunity to learn from excellent physicians while also helping to shape a better health care future for both physicians and patients. As an incoming physician-in-training, MSD's commitment in improving the care of the sick, advancing public health by providing leadership in confronting issues affecting the well-being of the population at large and sharing medical knowledge and medical education are all aspects I would like to contribute and assist with.

**What is your hometown?**

Long Island, New York

**Is there one Delaware destination you'd like to visit, if so where and why?**

Rehoboth Beach! Growing up with beaches near me in Long Island, I've heard wonderful stories about Delaware's beaches, and I would love the opportunity to visit.

**When did you decide to go into medicine and why?**

After college I worked as clinical research assistant at Memorial Sloan Kettering Cancer Center in NY. As I interacted and worked with patients, I became aware of my limitations as an assistant and wished to play a stronger role in treatment and forming longitudinal relationships with patients.

**What do you like to do in your spare time?**

I enjoy reading, listening to music, hiking and trying new things and hobbies.

**What would you like to see MSD work on that could further support resident members?**

I would appreciate MSD's insight in providing information, education and support to help plan for the future and advance resident careers.

**Where do you see yourself in 10 years?**

Either as a hospitalist or in private practice!
