Removing the Barriers:

It's Time for a Checkup from the Neck Up

An introductory CME curriculum in understanding and increasing awareness of dementia and Alzheimer's disease and removing the barriers to increasing cognitive assessments.

About This Curriculum

This CME physicians education curricular resource addresses physicians' understanding of cognitive health, cognitive impairment, and Alzheimer's disease and how to remove the barriers to increase cognitive assessments.

Curriculum Includes

- ADRD overview
- Diagnosing dementia through cognitive assessments
- Role of cultural diversity in dementia care
- Providing and discussing dementia diagnosis
- Understanding early stages of dementia
