News From
School of Medicine
Library

February 2021

Updates on new services and tips for efficient access to all library resources

Inside this issue:

EndNote 20	1
COVID 19 Publications	1
MyNCBI Login Changes	1

Questions or Comments?

If you have any inquiries about library resources or experience any issues with access, please send an email to medicine.library@hofstra.edu (SOM) or emil@northwell.edu (Northwell).

EndNote 20

EndNote 20 is now available through Northwell IT and will be available soon through the Hofstra portal. The updated version contains the following new features:

- Redesigned modern interface
- Reference summary which puts critical information first
- Redesigned easy search experience
- Redesigned PDF viewer with annotation tools
- Open references and groups in individual tabs

For more information on how to install and use EndNote, please visit the [EndNote LibGuide](#).

COVID 19 Publications

COVID-19 publications authored by members of Northwell Health or Zucker School of Medicine are available in our institutional repository, [Academic Works](#). Click [here](#) to access the COVID-19 collection. Contact [Leanna Stager](#), Scholar Publications Librarian, for any questions about the collection or Academic Works.

MyNCBI Login Changes

Do you login to NCBI to use MyNCBI, SciENcv, or MyBibliography? Do you submit data to NCBI? There are important changes coming to NCBI accounts in June!

What's happening?

In brief, NCBI will be transitioning to federated account credentials. **NCBI-managed credentials - the username and password you set specifically at NCBI - will be going away.** Federated account credentials are those set through eRA Commons, Google, or a university or institutional point of access.

What do I need to do?

Click [here](#) for detailed information on how to transition your account if you are using NCBI managed credentials.
