Rural Themed Pilots and Annual Pilot

OUR STORY

The CTSC unites Northern Ohio researchers, providers, and partners to advance medical research, foster innovation, and improve clinical study participation and public health.

OUR VISION

The CTSC Annual Pilot Awards plan to support projects up to \$50K address a later stage of clinical research of community health with a measurable outcome leading to a change in health using Translational Research approaches.

OUR GOAL

*To incorporate community perspectives into the full spectrum of research, which includes evaluating research proposals and the potential impact on the communities they take place in.
