

Multisite Research Planning Consultations

The CTSC of Northern Ohio supports collaboration across our partner institutions. Multisite Research Planning Consultations help researchers coordinate study startup and management, improving the efficiency of multi-center research at any stage—from pre-award to close-out.

How Multisite Consultants Can Help

Through a 1-hour consultation and follow-up meetings as needed, our team can support you with:

- Team charter and communication planning
- Regulatory strategy and compliance
- Recruitment planning
- Needs and site feasibility assessment
- Navigating Reliant IRB Review
- Resource use planning at the CTSC and institutional level
- Incorporating decentralized study features (e.g., e-consent, wearable technology, tele-health)
