

Clinical Research Summer Observation Program

The Clinical and Translational Science Collaborative Workforce Development (WFD) team is offering a week-long immersive program for high school and college students to help learn about the many roles in clinical research. This is a unique opportunity for a limited number of high school and college students to gain real-world insight into the daily work of research professionals and explore whether a career in clinical research is right for them.

Program Includes

- 3 days of shadowing clinical research professionals
- 2 days of in-class sessions with guest speakers

Who can apply?

Incoming high school juniors and above (students 16 years and older). Students should be prepared to interact during each session.

Program Dates

Orientation - June 9, 2026

Observation Program - June 15 – June 19, 2026

Full agendas will be available upon registration
