

Sickle Cell Disease Studio

Are you an adult aged 18 or older diagnosed with Sickle Cell disease or trait living in Greater Cleveland? We invite you to join a special Community Engagement (CE) Studio, where your lived experience can help guide better health programs for Sickle Cell testing across Northeast Ohio.

Who Can Participate?

We are looking for men and women from Greater Cleveland who are 18 or older and meet at least one of the following:

- Have sickle cell disease or sickle cell trait
- Have a family member with sickle cell disease or know someone who does
- Have family roots from Africa, southern Europe (Italy, Greece), South Asia (India) — places where sickle cell disease is more common

What's Involved?

- Attend a 2-hour in-person session with other participants and researchers in Greater Cleveland
- Share your experiences and feedback regarding Sickle Cell disease testing
- Receive \$100 as a thank you for your participation
- Refreshments will be served

Your insights will help researchers build better health programs for Sickle Cell disease testing.

For questions contact Ivory Simms at ijs34@case.edu or 216-368-5774
