

Burke County Chamber

We started a "Virtual Tip Jar". We got recognized by the NC Main Street program for it, so it might be worth something for your newsletter, if you think so.

The Virtual Tip Jar is a place where people laid off from jobs like servers, bartenders, etc. can sign up with their PayPal or Venmo account. Small businesses can sign up to sell gift certificates or non-profits can sign up to receive donations. People who are wanting to help can give money to who they want, maybe their favorite bartender or server or help a small business. 100% of the donations goes directly to the person or small business. It is our way of matching people who need help with people who have the means to help. It is on our home page of our website. www.burkecountychamber.org.
