

The Lewisville-Clemmons Chamber partnered with the [Small Business Center at Forsyth Tech](#) and the Clemmons Community Foundation to launch [Small Business Navigators](#). This free program connects small business owners, nonprofits, and the self-employed with a personal navigator to guide them through COVID-19 resources available to keep their businesses afloat. We have a team of 11 navigators with backgrounds in banking, insurance, nonprofit, and other sectors volunteering their time and expertise to help our business community in this endeavor. A \$2,000 grant from the Clemmons Community Foundation and our volunteer team made this vision a reality. Learn more at smallbusinessnavigators.com.
