

Join us and lend your voice in support of expanding housing opportunities across our community!

Become an individual ambassador or a corporate or institutional partner.

Who We Are

The OneVoice initiative draws from the collective expertise and passion of individuals and organizations. We organize, educate, and advocate for housing options in our community.

What We're About

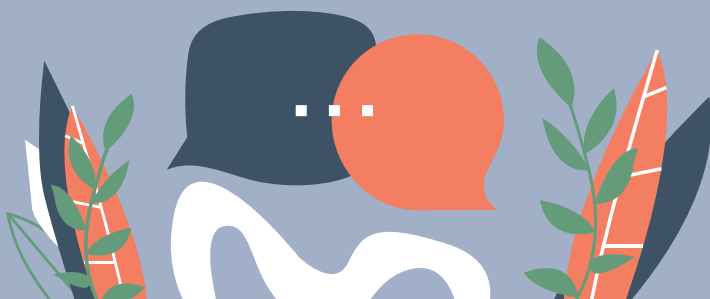

Members of the OneVoice initiative coordinate efforts to illustrate for the broader community, elected officials, and policymakers the current housing conditions and opportunities for advancing housing opportunities.

Ready to add your voice?

Join us to advocate and educate and to stay informed. Partners will receive regular communication, be invited to engage and to show their support by adding their name or logo to the growing list of ambassadors.

Expertise on the subject IS NOT required, just passion. And there are no minimum participation expectations. We welcome all who wish to speak in favor of expanding access to housing opportunities!
