BENEFITS + RESOURCES

CMA understands the unique challenges facing physicians and provides services, resources and benefits to help you succeed. Members can offset the price of their annual dues when using CMA membership services and discounts.

Practice Resources

Reimbursement Assistance: Experts from CMA's Center for Economic Services provide free one-on-one assistance to members and their staff on reimbursement, contracting and practice management-related issues. Services include educational resources, one-on-one assistance and direct intervention with payors. CMA's reimbursement experts have recouped \$43.4 million from payors on behalf of CMA physicians in the past 14 years. These monies represent actual physician reimbursements that would have likely gone unpaid without CMA intervention. Reach CMA's reimbursement experts at **(888) 401-5911** or economicsservices@cmadocs.org.

Legal Resources

Legal Services: CMA's legal department provides members with information and resources about laws and regulations that impact the practice of medicine. While CMA staff cannot provide physicians with individual legal advice, our health law information specialists, with the support of CMA legal counsel, will help you find legal information and resources on a multitude of health-law related issues.

Health Law Library: CMA's health law library is the most comprehensive health law and medical practice resource for California physicians. Access to the library is free for CMA members (nonmembers can purchase documents at \$3 per page). cmadocs.org/health-law-library
