RISHI MANCHANDA, MD, PRESIDENT & CEO, HEALTHBEGINS

KEYNOTE SPEAKER

LINKAGE BETWEEN SOCIAL INEQUITY AND HEALTH
DISPARITIES

TUESDAY, MAY 18, 6:30 TO 8:00 PM

Dr. Manchanda has spent more than a decade developing novel strategies to improve health in resource-poor communities. In this presentation, he examines the connections among socioeconomic factors, systemic inequality, and health disparities. Socioeconomic factors that may not seem directly related to health

outcomes are in fact closely related through systems that promote unequal treatment and thus lead to disparate outcomes.

ANTHONY ITON, MD, JD, SENIOR VICE PRESIDENT, HEALTHY
COMMUNITIES, THE CALIFORNIA ENDOWMENT

KEYNOTE SPEAKER

HEALTH INEQUITY IN OUR OWN BACKYARD

TUESDAY, MAY 25, 6:30 TO 8:00 PM

Dr. Iton oversees a 10-year, \$1 billion initiative to improve the health status of low-income Californians. In this presentation, he will give a local view of how the relationship between systemic inequality and health outcomes impacts patients in our community. Data will be presented that show the effects of the widening wealth gap in the

Bay Area and of the unequal distribution of resources on the health outcomes of specific demographics.

PANEL DISCUSSION | **COMMUNITY
RESILIENCE CASE STUDY: PHYSICIAN
LEADERS OF THE AFRICAN AMERICAN
RESPONSE CIRCLE (AARC)**
TUESDAY, JUNE 1, 6:30 TO 8:00 PM

This panel will discuss the political, cultural, and socioeconomic factors that led to exacerbations of health disparities in the African American community during the COVID-19 pandemic. They will identify leveraging points that can help mobilize resources for supporting community resilience. Additionally, they will describe the critical ingredients for a successful community-based alliance that bridges healthcare delivery with other sectors such as public health, educational, and religious institutions.

PANEL DISCUSSION | **A SYSTEMS
APPROACH CASE STUDY: THE
PERMANENTE MEDICAL GROUP (TPMG)**
TUESDAY, JUNE 8, 6:30 TO 8:00 PM

TPMG is taking a strategic approach to health equity that includes a focus on People, Patients, and Community. We will hear how TPMG is approaching health equity and dive into some of the specific areas and initiatives that are underway to move the dial towards equity. Participants will understand some of the elements and considerations that go into a systems approach to health equity.

PANEL DISCUSSION | **LEADERSHIP IN
ACTION CASE STUDY: KEDRAN
COMMUNITY HEALTH CENTER**
TUESDAY, JUNE 15, 6:30 TO 8:00 PM

Learn how a South Los Angeles health center became a model of success for vaccine distribution. This panel will examine the contributions from a community organization, specifically, the partnerships created to remove barriers to getting vaccines to underserved communities. Their story shows the positive and uplifting atmosphere they spread to be part of the solution during the pandemic.
