Flex Enrichment Programs will observe all Rye Neck District COVID-19 protocols

Camps, care, and enrichment programs designed to educate, entertain, and engage students.

CLASS DESCRIPTION

ROBOTICS WITH MBOTS MACINSPIRES EDUCATION

Robots are being used everywhere, from shopping centers to hospitals and everything in between. Every single robot was first programmed by humans... Experience how to program robots first hand through block based code, similar to scratch. With this fun and easy to use programming language we code the mBot Robots to perform various challenges! Mbot has a build in distance sensor, color sensor, lights, sounds and more - all able to be controlled and manipulated through important programming concepts students will learn, such as loops, conditional statements, variables and more. Robots also teach us a lot about math through measuring distance and angles.

STEM CHALLENGE PLAY-WELL TEKNOLOGIES

Level up your engineering skills with Play-Well TEKologies and tens of thousands of LEGO® parts! Apply real-world concepts in physics, engineering, and architecture through engineer-designed projects such as: Gear Cars, Merry-Go-Rounds, and Tower Cranes. Design and build as never before and explore your craziest ideas.

STEM FUNDAMENTALS WITH LEGO® MATERIALS PLAY-WELL TEKNOLOGIES

Level up your engineering skills with Play-Well TEKologies and tens of thousands of LEGO® parts! Apply real-world concepts in physics, engineering, and architecture through engineer-designed projects such as: Cars, Helicopters and Treehouses. Design and build as never before and explore your craziest ideas.

HIP HOP MESSAGE IN MOTION

Do you love to dance in the car or attempt break dancing in the kitchen? Then this might be the class for you! In this high energy hip hop dance class, students will learn the fundamentals of this increasingly popular dance form including break dancing, popping and locking and freezes, as well as iconic hip hop movements including the cabbage patch, the wave, the snake, and more! Class emphasizes rhythm and style, personal expression, choreography, and basic strengthening and conditioning. Students collaborate and learn funky routines, and let their inner star shine through break dance battles and more. Don't miss out on this unique, super fun class!

MUSICAL THEATER MESSAGE IN MOTION

Students are introduced to the main components of musical theatre including voice, acting, basic music theory, and dance technique (typically musical theatre jazz/broadway style and/or hip hop.) Learn choreography and staging basics while utilizing props, role playing, and imagination to aid in personal expression and creativity! Students learn and collaborate on mini musical routines from both old school Broadway shows like Cats & Lion King to more contemporary productions and shows like Hamilton, Fresh Beat Band, Annie, and more!

MULTI-SPORT BONANZA HI-FIVE SPORTS CLUB METRO

We will focus on games played in the gym. Children will improve at games such as Hockey, Basketball and Kickball

INDOOR SOCCER CORBIN'S CRUSADERS

Corbin's Crusaders offers sports and athletic pursuits coached by experienced professional men and women. Their job is to help your child take his or her skills to the next level and have a great time while doing it. The focus will be on Soccer.

STOP MOTION ANIMATION MACINSPIRES EDUCATION

Experience the amazing world of Stop Motion Animation used to create some of our favorite movies like Fantastic Mr. Fox, Wallace and Gromit and what inspired The Lego Movie! By creating a scene and moving objects and characters slightly between each photo, one combines the photos to make moving images, a movie! Students first learn about and create storyboards to dictate how their scenes will be shot. Using Legos, puppets, and various other objects, students will create original stories told through stop motion. Stop Motion is an inspiring way to grow creativity, patience and problem solving skills.

CLASS DESCRIPTION

ARCHITECTURAL BUILDING AN INSPIRED EMPTY VESSEL

Students will learn about Tension and Compression, the two forces that work together to keep buildings standing up! We will construct a model Tipi (tension) by first designing its cover, then framing it with bamboo poles. We will build a model skyscraper using the principle of compression. Learners will score cards to build pylons, experiment with different designs, then glue the pylons and floors to complete their skyscraper.

CHESS CLUB CHESS WIZARDS

Enter into the magical and exciting world of chess with Chess Wizards! You will participate in epic chess games, fun and interactive lessons, tournaments, team matches, trivia and more! Our specialized classes are a blast for everyone first through fifth. Whether you have been playing chess for your entire life and want to improve, are brand new to the game, or you just want to have a fun experience with your friends - Chess Wizards is the place for you!

KIDS SPORTS CONDITIONING CORBIN'S CRUSADERS

Corbin's Crusaders will focus on sports and fitness. This program offers sports and athletic pursuits coached by experienced professional men and women honing skills to get players ready for the game. Their job is to help your child take his or her skills to the next level and have a great time while doing it.

HI-FIVE FLAG FOOTBALL HI-FIVE SPORTS CLUB METRO

This class is focused on improving the children's skill level and taking their game to the "next level" We will work on the basic fundamentals like throwing, catching etc. We will also focus on game strategies, like running pass patterns, and how to think the game while playing it. All sessions will involve improving skills through drills as well as game time. We will also implement our S.T.E.M in Sport curriculum into the class. Most importantly we will emphasize teamwork, sportsmanship and fun.
