Coronavirus Update: Telebriefing for Community and Faith-Based Organizations **Public Health Officials Provide Update on Novel Coronavirus (COVID-19)**

All of our COVID-related metrics are trending in the right direction. Cases, hospitalizations and deaths are down in L.A. County and our vaccine distribution is in full strength. Nearly 5.4 million doses of COVID-19 vaccine have been administered to people across L.A. County. With that said, we must remain cautious. The virus is still very much alive and active in our Country; 21 states have recorded at least a 10% rise in daily COVID cases last week. Public Health will conduct a telebriefing to update you on the latest COVID-19 response, go through updates to Health Officer Order, and answer your questions and listen to your feedback.
