

## Travel for Training and COVID Self Isolation

SMAC has reviewed the current self-isolation requirements for travel to commence training and competition in different jurisdictions in Canada. The following is a summary of their findings and recommendations.

Regional public health guidelines (may differ between provinces or subsets thereof) serve as a starting point and minimum requirement. Individual judgments on a case-by-case basis made by qualified persons (NSO physician or CSI CMO) taking into account specific risk factors and mitigators (e.g. - travel origin, destination, vulnerabilities, means and route of travel) could be considered.
