Thank You For Your Efforts!
RebuildNH Activists Help Pass 10 Pro-Liberty Bills into Law!

Watch the wrap-up for our 2022 Legislative efforts. [Click here to watch.](#)

Now that all of this year's RebuildNH bills have had their day on the governor's desk, we're pleased to announce that 10 of our

legislative efforts from this year have passed into law. We could not have advanced this pro-liberty legislation without your help, and we are quite grateful for your efforts.

The following RebuildNH supported bills are now the law of the land:

★ **HB 1466**, relative to the off-label use of prescription drugs and relative to pharmacy prescriptions. This law, effective immediately, allows medical practitioners to prescribe medicines for reasons other than their indication and would prohibit the state from punishing pharmacists for filling such prescriptions.

★ **HB 1495**, prohibiting the state from requiring businesses to require vaccine or documentation related to vaccination or immunity status. The title of this new law, effective immediately, speaks for itself, but requirements for businesses that receive Medicare or Medicaid funding may be different based on federal regulations.

★ **HB 1439**, relative to health care facility visitation policies. This law, effective immediately, allows a designated family member to be present with a patient in a medical facility to serve as a patient advocate.

★ **HB 1003**, prohibiting health care providers from refusing to provide care or services based on patient vaccination status. The title of this new law, effective immediately, speaks for itself.

★ **HB 1488**, expanding the prohibition against discrimination based on an individual's election not to participate in the state vaccine registry. This law, effective on July 19, 2022, prohibits schools, child care agencies, and government health agencies from discriminating against any person who is not included in the state's immunization registry.

★ **HB 1608** relative to withdrawal from the state immunization registry. This law, effective immediately, requires the state to inform citizens of their right to withdraw their COVID vaccination status from the state's vaccine registry.

★ **HB 1606**, making the state vaccine registry an opt-in program. This law, which takes effect on July 1, 2023 (next year), will give patients the choice whether to participate in the state's vaccine registry and will also require a patient's explicit consent to add any patient data to the

registry.

★ **HB 1280**, prohibiting a parent's refusal to vaccinate a child from being used as evidence in any proceeding to terminating parental rights. The new law literally says: "A parent's decision not to have their child vaccinated shall not be used as evidence in any proceeding to terminate parental rights."

★ **HB 1604**, including state medical facilities in the statute providing medical freedom in immunizations. This law, effective Aug. 23, 2022, will require state hospitals and medical facilities to grant religious and medical exemptions from vaccination requirements.

★ **HB 1455**, relative to state enforcement of federal vaccination mandates. This law, effective immediately, prohibits state enforcement of any federal law, order, or rule that requires an individual to either provide proof of vaccination against COVID-19 or test for the virus more than once per month to keep their job or participate in any other activity.

We understand that five of **our bills that passed the Legislature** didn't make it, but this statistic highlights the significance of your activism that enabled the 10 efforts listed above to become law during a session with a razor-thin, pro-liberty majority. It also underscores the importance of preparing for the upcoming primary and general elections. It is incumbent on all of us to make sure high-scoring RebuildNH lawmakers make it back into office and that we also elect a new crew of liberty-friendly legislators to replace those who thwarted our efforts so that we can advance enhancements to these laws and new measures that protect our liberty. To that effect, we will be releasing our 2021-2022 legislative scorecard in the coming weeks that will grade the lawmakers who served this past term as well as our candidate survey, which will help identify which candidates score well on the issues that are important to you.

The fight for liberty never ends, and now that we have you engaged, we really need to make sure you stay involved going forward to keep our pro-liberty momentum going and prepare tomorrow's New Hampshire for our children. Please continue to stay tuned as the election season

unfolds in September and November, and the next Legislative session gets underway early next year.

Your Financial Support Will Help Keep Things Moving!

RebuildNH is a grassroots organization led and sustained by New Hampshire-based activists Melissa Blasek, JR Hoell, Carolyn McKinney, Andrew Manuse, Leah Cushman and Thomas McLeod, and our work could not continue without the political activism of YOU and people like you. To be clear: that's political activism, not financial support. We have insisted on NOT making a practice of sending out fundraising emails. We have supported this organization organically out of our own pockets and through the volunteer donations of people who have been moved to donate, and honestly, we want to keep it that way. There's no "but" here; simply some education and a humble ask.

We purchased a HUGE tool that will help us with our activism efforts and will make activism easier for you, and we believe it's going to work well. Some of you have already experienced its benefits. It wasn't inexpensive, and it comes with an annual subscription cost. We could use an influx of cash to help cover the expense. If you believe in what we're doing—namely, fighting back against tyranny in government and advancing the cause of freedom using the Constitutional system that was set up by our Founders—then please help us continue to facilitate these efforts and support the use of our new tool.

Please **DONATE today** to support our efforts.

Resolve Initiative To Host Candidate Debates

The Resolve Initiative will be hosting candidate debates from 4 p.m. to 10 p.m. on Friday, August 5, 2022 for every Republican candidate for the top 30 positions in government; namely, governor, executive counselor and state senator. RebuildNH supports the idea of candidate debates for these important elected positions to help inform voters and encourages participation in this event. All Republican candidates who filed for office have been invited by the Resolve Initiative. You may [click here](#) to purchase tickets for the event, which will hold 900 people.
