

### Personal Protective Equipment Chart

Item	Description
Masks – masks and level of PPE should be determined by the type of activity being performed and based on CDC guidance	<p>Preferred types (in descending order): <a href="https://www.cdc.gov/coronavirus/2019-ncov/hcp/using-ppe.html">https://www.cdc.gov/coronavirus/2019-ncov/hcp/using-ppe.html</a></p> <ol style="list-style-type: none"> <li>1. Surgical masks</li> <li>2. Homemade masks/face coverings. The Illinois Department of Public Health has provided <a href="#">guidance</a> on when to where a mask, how to construct a mask and how to care for masks. The U.S. Centers for Disease Control and Prevention (CDC) now recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), especially in areas of significant community-based transmission. CDC also advises the use of simple cloth face coverings to slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others.</li> </ol>
Gloves	<p>Preferred types (in descending order):</p> <ol style="list-style-type: none"> <li>1. Surgical gloves</li> <li>2. Nitrile gloves</li> <li>3. Food service gloves</li> <li>4. Plastic gloves</li> </ol>
Isolation Gown	<p>Guidance for Schools <a href="https://dph.illinois.gov/topics-services/diseases-and-conditions/diseases-a-z-list/coronavirus/schools-guidance">https://dph.illinois.gov/topics-services/diseases-and-conditions/diseases-a-z-list/coronavirus/schools-guidance</a></p>
Cleaning Supplies/Disinfectant – as listed on List N and approved for SARS – CoV-2 <a href="https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2">https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2</a>	<p>Normal janitorial cleaning and disinfectant supplies probably are sufficient, but preference should be given to items on USEPA's List N: Disinfectants for use against SARS CoV 2.</p>
Soap	<p>Regular soap is sufficient provided individuals washes their hands for twenty seconds using soap and warm water.</p>
Thermometers	<p>Non-contact thermometers preferred.</p>
Hand sanitizer	<p>Hand sanitizer should contain at least 60 to 95% alcohol</p>
