

CRISISGO SAFETY IPASS

Innovative & Comprehensive Solution for Returning to School Safely

CrisisGo's Safety iPass offers the utmost streamlined and secure way for schools to manage the full scope of COVID-19 safety needs.

With Safety iPass, schools of all sizes can cover the full spectrum of COVID-19 safety needs; with Testing Management, optional Symptom Screening, Vaccination Record Management, Close Contact Tracing, Quarantine, and Area entry verification, etc. Safety iPass conforms to CDC and any other specific COVID-19 protocols, helping schools comply with local COVID-19 guidelines and laws.

TESTING MANAGEMENT STREAMLINE SCHOOL STAFF & STUDENT TESTING MANAGEMENT WITH FULLY SIS/HR/TEST LAB SYSTEM INTEGRATION

Testing Schedule Management

- On-demand testing schedule via opt-in process.
- Diagnose testing and screening testing schedule management based on school testing strategies and contact tracing result.

Testing Consent Management

- Digital survey tool helps schools collect testing consent for staff, and for students from guardians.
- Auto testing consent collection for on-demand testing schedule.

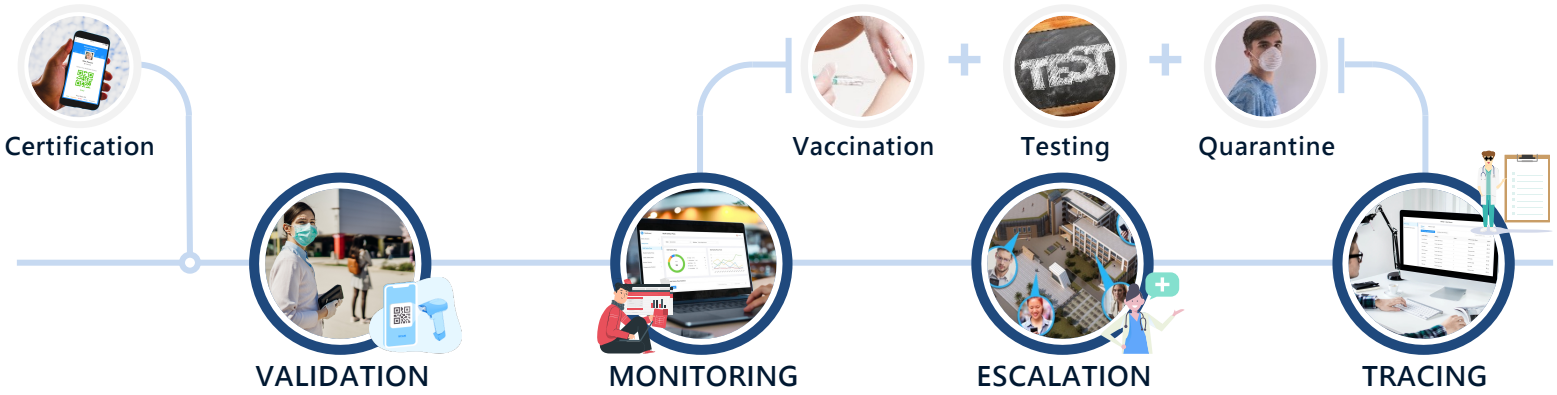

Testing Result Management

- Manage testing results from both test labs and personally uploaded by students and staff from app.

Testing Data Dashboard

- Provide overall view about test schedule, participants and results to school nurse/administrators, and school district administrators.

MONITOR, MANAGE, COORDINATE, COMMUNICATE FOR SCHOOL HEALTH PROTECTION

- HIPPA compliant.
- Fast Deployment in 5 business days.
- Dedicated Project Manager for onboarding.

- No app is required for basic school health management.
- No GPS based location tracking for contact tracing.
- Entry management does not require additional hardware.
