

WORK BEGINS

MOHAWK BOULEVARD AND OLYMPIC STREET OVERLAY PROJECT

As part of 2018 voter-approved GO Bond Measure 20-296 for Springfield street fixes, repairs to Mohawk Boulevard and Olympic Street will begin in early February 2021.

Where will work take place?

On Mohawk Boulevard from G Street to the interchange with Hwy 126 and on Olympic Street from Mohawk Boulevard to 28th Street.

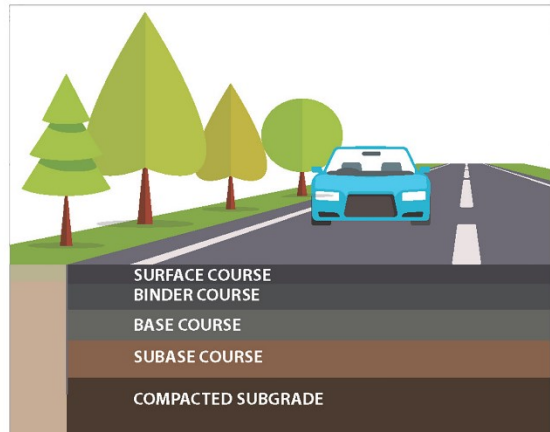

What's planned?

Necessary street repairs consist of milling and paving with some full depth repairs for areas with extensive damage. Both projects will have new street striping. To meet current standards, most of the existing Americans with Disabilities Act (ADA) sidewalk ramps and associated crosswalk push buttons require updates.

When will work happen?

FEBRUARY–OCTOBER 2021

Daytime work will focus initially on the ADA ramps, with nighttime work to reduce traffic impacts planned later in summer.

All schedules are subject to change due to weather conditions.
