

Softball is available to girl athletes in grades 4th-8th. Practices and game schedule will be released by the coaches at the start of the season.

Please note that softball is a varsity level sport. Students in grades 7-8th will get the majority of playing time. Younger students will participate in games as their skills develop at the discretion of the coaches.

This year we are opening softball to 4th grade students on an instructional level. The girls will receive a jersey and practice with the team. This will help build their skill and confidence to be ready for next year. There may be a possibility to participate in a game depending on the skill level of the opposing team. Younger students are encouraged to join to learn the game!!
