water-resources@burlingtonvt.gov**

****IMPORTANT NOTICE****

DPW Water Resources will be performing vital work to the water distribution system in your neighborhood.

This work is scheduled on Monday 9/12/22 between 8:00 AM-1:00 PM and will cause a temporary disruption to your water service.

During this time, you may experience no water, discolored water, or reduced water pressure. Discolored water can be remedied by running cold water in one faucet until clear. Please share this information with anyone who lives or works at the property.

If you have any questions, please contact us at 863-4501 (answered 24/7) or by email water-resources@burlingtonvt.gov (we reply during business hours).

Thank You!
