**Marketing** / Editing / Distilling

Currently producing marketing video pieces for social media.

I have over 30 years experience working professionally in video.
20 years as a television producer based in NYC, LA and Japan..
10 years as a video editor in advertising. NYC

## My approach

With much of my video experience in making documentaries - I prefer shooting real life and work.  Then edit to make “marketing stories” that pass as entertainment or documentaries.
