## **URGENT MESSAGE**

**from the Ministry of Health**

**\*\*\* Requires Immediate Response \*\*\***

Public health and stopping the spread of COVID-19 remains everyone's top priority. We can all do our part by following the direction and orders from our provincial health officer. These are orders and direction that must be followed, and we thank you for playing your part.

A new unit has been established at Emergency Management BC to coordinate supplies as part of the province's action plan for COVID-19. The province, through EMBC, will take an active role in coordinating essential supplies.

**To ensure critical supplies such as personal protective equipment and cleaning materials are available, we are asking for an inventory of the critical supplies that you have within your organization/facility.** This action will ensure essential services in the province can continue to operate.

The Ministry is asking all veterinary facilities/organizations to **provide an inventory of any listed supplies (see below) that are not related to an essential service** and inform us immediately, by completing the inventory form and **sending the completed form to the CVBC immediately at [feedback@cvbc.ca](mailto:feedback@cvbc.ca) or by fax to (604)929-7095.** Also, please indicate whether you have the capability to transport these supplies to a central location in Lower Mainland or in Victoria.

This is a challenging time and we must work together. Each of us has a role to play in reducing the spread of COVID-19 and protecting the people we love.

Thank you for your continued patience and cooperation.
