

# Most Restrictive Gun Ban in State History Withdrawn from Consideration

The Maryland House Judiciary Committee voted to withdraw gun ban legislation, [HB 1261](#) after receiving tens of thousand of calls/emails from NRA Members and Second Amendment supporters. This bill would of significantly expand the number of firearms that are subject to Maryland's already extreme prohibition on so-called "assault" firearms. **This includes some of the most popular and commonly-owned semi-automatic rifles, pistols, and shotguns in existence.** Your continued vigilance, calls and emails make all the difference in the ongoing fight for our Second Amendment rights.
