California Community Schools Partnership Program (CCSPP) Overview:

Beginning in the 2026-27 school year, eligible schools will have access to new ongoing funding to establish and sustain the California Community Schools Partnership Program (CCSPP). The funding will be distributed through a new state funding model for eligible schools.

Eligible school sites with **more than 65% unduplicated pupil count and at least 10 enrolled students** may qualify for annual funding ranging from **\$75,000 to \$400,000 per site**, depending on enrollment.

To receive funding for the 2026-27 school year, LEAs must opt in by Nov. 1, 2026, for any eligible sites not already receiving a CCSPP grant, or for any LEAs who are not current grantees. Additional details on CCSPP funding beyond the 2026-27 school year are still under development at the state level. For schools already receiving CCSPP funding, eligibility for additional funding begins after the sunset of current CCSPP grants.
