

## 2018 Technical Workshop

October 18 & 19, 2018

Garre' Vineyard & Winery, Livermore, CA

### Laser Optics Manufacturing.

*Featuring: Optics finishing talks from Lawrence Livermore NL and a tour of their laser and manufacturing facility (tour for US Citizens only).*

APOMA invites you to promote your business while sponsoring a powerful workshop on applied precision optics manufacturing! The following opportunities are available; please contact Michele Stolberg at APOMA for additional details (email: [apoma.org@gmail.com](mailto:apoma.org@gmail.com)).

<b>Signature level:</b>	\$500	Company name included in event program; Recognition during event.
<b>Patron level: (Limited)</b>	\$1,500	Company logo included in event program and on Workshop Webpage; Sponsorship mention in electronic correspondence; Table top display in Conference area; Recognition during event.
<b>Premier level: (EXCLUSIVE)</b>  TAKEN - Universal Photonics	\$5,000	Company logo/web link to appear on all printed and electronic event materials; 5-minute presentation to group to promote product and services. Preferred position for tabletop display in the conference room during workshop. Logo and link on APOMA website advertising event; Mailing list of all attendees. First refusal to provide company logo folders for event participants.

*This workshop will focus on manufacturing processes, inspection standards and metrology that are applicable to laser optics manufacturing. In addition to a half-day tour of LLNL, there will be invited talks by industry experts and others as selected by the workshop review committee. Abstracts that are submitted by consultants, machine and instrument manufacturers that are deemed to be advertisements in nature will not be accepted. Each talk will be approximately 40 minutes in duration and provide useful information that the attendees can bring back to the shop floor.*
