

**BOSCH**

Invented for life

Public service announcements at retail stores

Improve safety and customer satisfaction by communicating important audio messages.

The Bosch solution for public service announcements enables you to communicate pre-recorded messages or instructions to customers queuing outside of your retail store as well as to those shopping.

This automated solution enables employees to focus more time on servicing customers inside the store, while keeping those waiting outside informed of the proper process to maintain safety.

Solution requirements:

- ▶ Indoor and/or outdoor speakers
- ▶ Amplifier
- ▶ Message player
- ▶ Pre-recorded messages
