

BOSCH

Invented for life

Enhancing an open air dining experience

Al fresco dining has become a popular solution for cafes and restaurants looking to remain open year-round in a COVID-safe way. By converting summer terraces or patios into covered or partly covered outdoor dining areas, customers can be comfortably accommodated while proper social distancing measures are maintained.

Commercial audio systems from Bosch can help to create the right atmosphere in these extended spaces, with a range of standard and weatherized options available – all offering straightforward installation and simple operation.

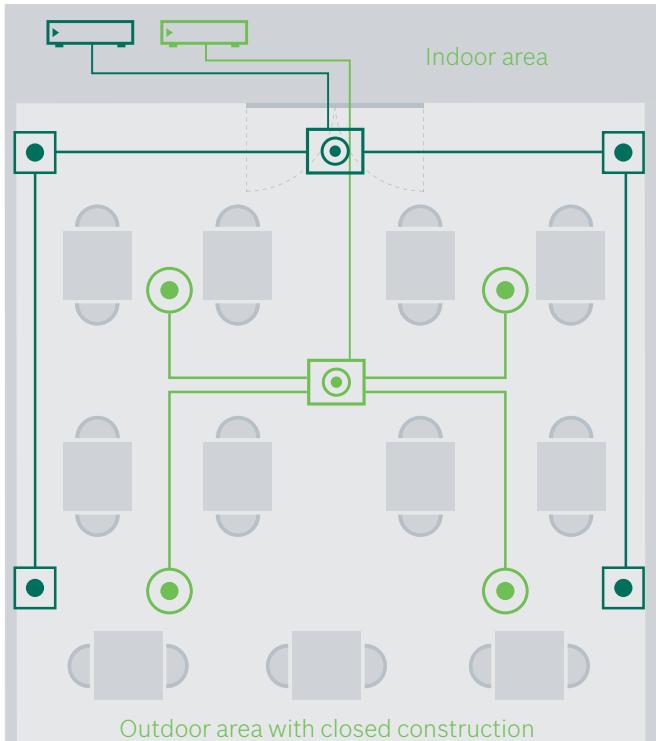

Surface-mount and pendant loudspeaker system solutions

- ▶ Compact, lightweight and aesthetically pleasing
- ▶ High-quality audio for background music – ensure the ideal ambience without exceeding outdoor volume-level limits
- ▶ Accessories included for secure pendant mounting (EVID-P2.1) or wall mounting (EVID-2.1)
- ▶ Typical system coverage is up to 1,000 square feet
- ▶ Easy system control via the PLENA mixer amplifier's front panel (PLE-1MA) or PC software/iOS device (PLM4P125)
- ▶ Easy system setup – connect multiple loudspeakers via the PLENA mixer amplifier's 70 V outputs
- ▶ **Weatherized IP65-rated models** provide protection against the elements **for open or partly covered constructions**
