

## **Fall Window Sun Catchers**

### **What you will need:**

Contact paper or self-laminating paper

Colorful fall leaves

Colorful fall flowers (pansies do best!)

### **Instructions:**

1. Find and collect colorful falls leaves and flowers outside at your home or neighborhood.
2. Lay contact paper on flat surface.
3. Position leaves and flowers on contact paper, allow some space between plants so contact paper can close and seal.
4. Once all leaves and flowers are in desired place, place second piece of contact paper on top and press firmly to flatten.
5. Display your fall suncatcher in a sunny window to allow the light to show off the beautiful fall colors!
