### THE SECRET TO SAVING AMERICA

**Fight the good fight without losing your soul**

Excerpt of article by David Kupelian

<https://www.wnd.com/2021/01/secret-saving-america/>

*"... become blameless and harmless, children of God without blemish in the midst of a crooked and perverse generation, among whom ye are seen as lights in the world ..."* – Philippians 2:15

FOR DECADES, the United States of America has been under covert, slow-motion assault by the revolutionary Left, a religious-political movement fundamentally at war with both Christianity and America. From the sexual revolution and the “marriage-is-legalized-rape” radical feminists of the 1960s, to today's open love affair with socialism, sexual anarchy, abortion, identity politics, radical environmentalism and “defunding the police,” the Left has relentlessly pursued its goal, as

Barack Obama put it, of “fundamentally transforming the United States of America.”

And although President Donald J. Trump fought mightily against this tide for four years, tirelessly pursuing a pro-life, pro-religious freedom, pro-Constitution, pro-America agenda, as of the end of 2020 the revolutionaries appear to be ascendant. Consider that in the past year the radical Left—with whose cause Big Media, Big Tech, Big Education, Big Hollywood and the entire Democratic Party totally identify—has succeeded in:

- Indicting the freest, most welcoming and least racist nation on earth as irredeemably racist;
- Inciting violent Marxist revolutionaries to riot, vandalize loot and burn America's major cities;
- Abandoning their former “safe, legal and rare” stance on abortion in favor of wanton celebration of late-term abortion up to the moment of birth and beyond;
- Encouraging innocent children to irreversibly ruin their lives by chemically (and sometimes -surgically) “transitioning” to the opposite sex—a scientific impossibility;
- Using the COVID pandemic as a cover for imposing unprecedented totalitarian control over Americans; and

-Gaslighting an entire nation by perpetrating the most wide-ranging, egregious and in-your-face election fraud in U.S. history while pretending disenfranchised American voters who simply want a fair and impartial investigation are the crazy ones, “trying to steal the election from Joe Biden.”

Even setting aside the outrageous election abuses, the major news media and tech monopolies pre-rigged November's contest long before Election Day by continually portraying Donald Trump as a Hitlerian, mentally ill traitor while casting the demented and spectacularly corrupt Joe Biden as a moral paragon and guarantor of national healing. They all knew better, but they did it anyway. However, a corrupt news establishment, a rigged election process, a radicalized Democratic Party and out-of-control Big Tech information gatekeepers are not our only problems.

America's colleges and universities have become Marxist indoctrination centers. Our public elementary, middle and high schools teach our children that all white people are inherently racist. Even preschoolers are herded into public libraries where demon-possessed men pretending to be women—some of them convicted sex-offenders—are allowed to beguile, indoctrinate and corrupt these children's tender little minds, while their clueless parents smile and nervously laugh.

America has become a very broken nation. In truth, Americans today are confronted with a maniacal revolutionary movement emanating from a full-bore rebellion against God Almighty and the essential foundation stones of Western Judeo-Christian civilization—from biblical morality, to “unalienable” individual rights, to equal justice under the law, to the

color-blind society championed by Rev. Martin Luther King Jr., to the sacredness of children in the womb.

Thus, while we work and litigate and demonstrate and persuade and donate and pray for a turnaround on all the current battlefields—from election integrity to media corruption to abortion—what America really needs is indeed a revolution. But not a Marxist one.

#### TOWARD NATIONAL REVIVAL:

First, a word of warning to hotheads: Whereas civil disobedience in the manner of the Civil Rights Movement demonstrators of the 1960s can be a powerful force for

good, awakening the conscience of a nation and bringing about truly positive change, angry and violent rebellion is not only counter-productive, it is precisely what the crazy maniacal left wants. That's right. Although they will never admit it, it's what they desire most of all. Why? Because it would enable them to point to “rightwing white-supremacist criminals and terrorists” and say, “See! We told you all along that far-right, white nationalist Trump-supporting fascists were the real problem.”

As events unfold in 2021 and beyond, bold strategies will no doubt emerge for righting the ship of state, and patriotic right-thinking Americans will surely pursue them. Members of Congress and all state legislators will play pivotal roles, as will governors and mayors and indeed all elected office holders.

In every area of life, Americans will have to bear up with grace and dignity in fighting the

good fight. Citizens, the ultimate sovereigns in America's unique constitutional system, who may be tempted to “drop out of politics” must do the opposite—vigorously exercising their sacred rights of voting, free speech, free association, freedom of worship, and to “petition the government for a redress of grievances” in every legal and moral way.

One final all-important point: Unlike virtually all other nations, the essence of America is not a common ethnicity but a common spirit—a grateful, magnanimous, moral, entrepreneurial, freedom-loving, generous, essentially Christian spirit, which needs to burn more brightly now in America than ever. Indeed, no real and lasting recovery is possible for America without a genuine spiritual revival. And each of us can play a key part in this revival.

How? While we're engaged on every battlefield—committed to work creatively and effectively, to outthink and outmaneuver, to educate and persuade, to enlighten and awaken—each of us needs, in Christ's own words, to “Let your light so shine before men,” always praying we can wage the battle righteously. And even praying for our enemies. Christianity has historically grown during times of persecution, not only in numbers but in depth. America's coming days promise to be tough ones. But if good people stand up for what is right, for their nation, for what is legal and moral and good—and if they do it with faith in God that He may be glorified and His will ultimately triumph—they really cannot lose.“ *And we know that all things work together for good to them that love God, to them who are the called according to his purpose.*”—Romans 8:28 ■

**STATEMENT BY DONALD J. TRUMP**  
45th President of the United States of America  
March 21, 2021

We proudly handed the Biden Administration the most secure border in history. All they had to do was keep this smooth-running system on autopilot. Instead, in the span of a just few weeks, the Biden Administration has turned a national triumph into a national disaster. They are in way over their heads and taking on water fast.

The pathetic, clueless performance of Secretary Mayorkas on the Sunday Shows today was a national disgrace. His self-satisfied presentation—in the middle of the massive crisis he helped engineer—is yet more proof he is incapable of leading DHS. Even someone of Mayorkas' limited abilities should understand that if you provide Catch-and-Release to the world's illegal aliens then the whole world will come.

Furthermore, the Mayorkas Gag Order on our Nation's heroic border agents and ICE officers should be the subject of an immediate congressional investigation. But it's clear they are engaged in a huge cover-up to hide just how bad things truly are. The only way to end the Biden Border Crisis is for them to admit their total failure and adopt the profoundly effective, proven Trump policies.

They must immediately complete the wall, which can be done in a matter of weeks—they should never have stopped it. They are causing death and human tragedy. In addition to the obvious, drugs are pouring into our country at record levels from the Southern Border, not to mention human and sex trafficking. This Administration's reckless policies are en-

abling and encouraging crimes against humanity. Our Country is being destroyed!

**OH WE OF LITTLE FAITH!**

**By Chaplain R.T. Byrum**

According to recent Pew Research Center data the number of Christians in the U.S. has declined by 13 million since 2009 leaving 167 million professing believers. The current population of the United States is 328,000,000 which means that there is still 51% of us who claim to be faithful.

Why then is there such fear and moaning over the political bombshells being dropped every day by the Socialist Democrat administration? Are we in any greater

danger than the disciples caught up in a violent tempest on the Sea of Galilee, and who were threatened with drowning?

Are we in a peril more impossible than the three young men thrown into a fiery furnace by evil king Nebuchadnezzar, or Daniel cast down into a pit full of hungry lions? If so, then hear the words of Jesus the Christ when He

said to His disciples in the storm, *“Why are ye fearful, O ye of little faith? Then he arose, and rebuked the winds and the sea; and there was a great calm.”*

The three, Shadrach, Meshach and Abednego emerged from the furnace without so much as the smell of smoke on their garments. Daniel was pulled out of the lions' pit without a scratch or bite.

Time and again God hears the cries of His truly faithful and answers. Sometimes He stays His hand for His purpose of correcting those that refuse to follow in the path of obedience.

Sometimes He delays action to give those who follow another god, the one of this world, to either condemn themselves or to cry out for forgiveness.

We are all guilty from time to time of thinking and speaking dark thoughts when Satan roars at us. When will we remember Romans 8:28, *“We know that in all things God works for the good of those who love him, who have been called according to his purpose.”*

Or Romans 8:31, *“What, then, shall we say in response to these things? If God is for us, who can be against us?”* How strong is your faith?

God sets up and removes kings (and other rulers) according to His eternal plan. He is totally aware of what is happening in Washington, DC, at the southern border, in the secret backroom meetings of congress and in the bloodstained abortion clinics.

So what do we do? First, immerse ourselves in the Holy Words of God in our bibles. Study the many scriptures on Faith and Patience. Pray often, especially whenever the dark moods depress our hearts and minds.

Then don't share negativity with friends and family. Be a beacon of hope and light. At the same time, email, write postcards and call the offices of those whom you trusted to represent the America you love and want to see restored to its Christian roots.

The signs of man's flawed ability to govern him-self is coming rapidly to an end, and we should pray even for our enemies for, *"This is good, and it is pleasing in the sight of God our Savior, who desires all people to be saved and to come to the knowledge of the truth."* I Timothy 2:3.

As the end time signs listed in Luke 21 are appearing in the news, then read these words of hope in verse 31, *"When you see these things happening, you know that the kingdom of God is near."*

Remember—at the end of the book, **The Good Guys Win.** [rtbwriter5163@gmail.com](mailto:rtbwriter5163@gmail.com)

## JOE BIDEN'S AMERICA

By Mike Huckabee

Joe Biden doesn't want to call the crisis at the southern border a crisis. At best, his people

call it a challenge. But here's an inconvenient truth—it's such a mess that the Biden team had to dispatch FEMA to help. That's the

Federal EMERGENCY Management Agency—called out when there is a disaster.

But Jen Psaki, the WH mouthpiece, says they have it all under control! That's like saying the landing of the Hindenburg was pretty smooth; or that the Titanic maiden was overall a great cruise except for that ONE little bump.

Or that Katrina was like a great big water park. Why is it so hard for them to admit that what they have on the southern border is an all hands on deck, Cat 5 disaster and it was created because in their arrogance, they decided to immediately reverse the successful policies of the previous administration.

They took Minnie Pearl's motto of "y'all come" as their message and by the thousands, they have come. And many of them are unaccompanied children.

There are so many of them that little storage units are being used to house the children—and there are 1800 of them in a facility that has a capacity of 250. Kids are only getting one shower a week, living in conditions that certainly don't allow for social distancing and they aren't getting COVID tests much.

When they do, and they test positive, they are still allowed in the country without a mask, although 4 year old Carter Kimball, an autistic boy from Benton, AR was removed from a Spirit Airlines flight because he didn't have a

mask, even though he had a medical note indicating that he couldn't wear a mask because of his autism as it caused him to have a meltdown.

John Kerry was on a plane without a mask last week and illegal immigrants can cross the border without a mask. So if you're told to wear a mask just tell them you're an illegal immigrant and your name is John Kerry — you'll be fine.

Reporters and even Congressmen are not being allowed to see first hand the conditions for these kids on the border, and there is a gag order placed on government officials there. When pushed about the lack of the promised "transparency," Jen Psaki said that the White House had some information and reporters could come by and some government officials would be glad to describe it to them. What??? The only thing more amazing than a North Korean style press propaganda operation is that almost all of the press corps seemed to think that was okay for an answer!

Joe Biden will finally hold his first press conference next week, but reporters have to apply and be picked to ask a question. I suppose that's so President Biden can have his answer scripted out and placed in his trusty teleprompter. Let's hope at least one reporter can sneak in some real questions—the kind the press ought to be asking of an administration that can't see the crisis that everyone else can see.

Joe Biden is turning America into a place where churches are locked down, but borders are wide open; where we kill thousands of high-paying jobs on a pipeline in order to get those people on a government rescue plan that their grandkids will have to pay for; where we

have people in Hollywood wanting to cancel Pepe Le Pew and Dr. Seuss, but give awards for pornographic performances of rap artists like Cardi B and Megan Stallion on the Grammys that are so adult that the lyrics had to be totally changed and the costumed should have been changed or at least covered up. In the meantime, the Biden bunch is covering stuff up—mostly just the truth about what’s happening on the border!

## FREEDOM’S ALTERNATIVE

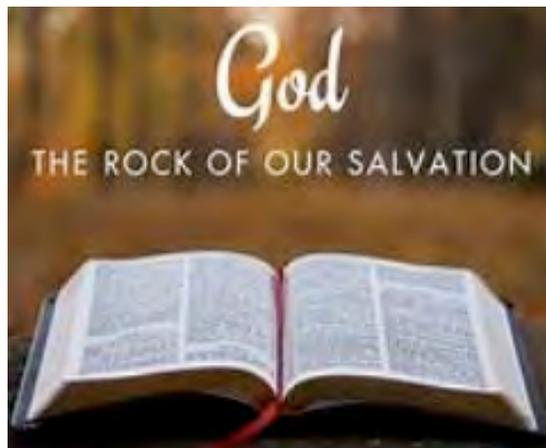

By Michael Karr

As we watch the deterioration of our society within the church and without; we are reminded that God has a law that has been neglected and forgotten, and we are paying for that neglect. The Supreme Court, in the late 1800’s, stated that all our laws come from or is extracted from the Ten Commandments. That no longer can be said!

As the culture of Egypt and Sodom settles in over our country; let us all in our homes, on our streets, within our towns and throughout our states stand up for God’s law or we shall surely perish from the moral miasma we are living in.

The cute bumper sticker society has given way to a mean, intolerant “you do it my way or else” culture. Even within the church we see a return to enforced orthodoxy of the dark ages, while at the same time the government is seeking to reestablish the Holy Roman Empire within the entire world, with its feudal mindset and the ignorance that springs from it.

Salvation comes from God, and freedom is its reward. Salvation is a choice we make to accept God’s rulership with His laws, or we

choose the rulership of the great deceiver. The problem is that we don’t want any of God’s laws; we only want what is socially acceptable among our friends and neighbors. We don’t want to be peculiar. Unfortunately, we don’t have that choice; we can choose God with His laws or the devil with his.

Society has moved in a direction of lawlessness progressively over the last 100 years. We don’t like where we are now, but we don’t want any of the restrictions that existed in the past. Paul tells us in his gospel to the Romans: “Jesus answered them, Verily, verily, I say unto you, Whosoever committeth sin is the servant of sin. And the servant abideth not in the house forever: but the Son abideth ever. If the Son therefore shall make you free, ye shall be free indeed.” John 8:34-36.

The state of our government, the culture and the church is due to our choices. Our wrong choices! “Do you not know that to whom you present yourselves slave to obey, you are that one’s slave whom you obey, whether of sin leading to death, or of obedience lead to righteousness.” Romans 6:16

The only hope for our country and its culture, is a return to God; not to the feudal nanny state of the dark ages, but to God. Isaiah said, “Come now, and let us reason together,...” Isaiah 1:18. God is not dictatorial: He wants to show us a better way. God’s Word is a better way. This nation was founded by people who read their bibles every day and who knew right from wrong.

Yes, there is right and wrong. Solomon, who learned the hard way said, “Can a man take fire in his bosom, and his clothes not be burned?” Proverbs 6:27. As we viewed the fires in our cities and businesses, this past summer, and even the anger and frustration that showed its face in January; let us stand together with God, for no government can enslave a people who are servants of the Most High God.

## HOW TO REACH YOUR CONGRESSMEN

According to *iVoterGuide*, every voter will have three members of Congress to contact: The two U.S. Senators from the voter’s respective states and the Representative from the voter’s district. Their contact information can be found by using the following links:

House: <http://www.house.gov/representatives/find/>

Senate: <https://www.senate.gov/senators/contact/>

[iVoterGuide](#) suggests:

**1. Call the Direct Number.** If possible, learn the direct number to your representatives’ offices rather than calling the switchboard. When you call directly, your number is displayed on caller ID. Simply put, elected officials generally care what you think because they need your vote. A staff quickly learns ar-

ea codes and is more likely to take the call when they see it is from their district/state.

**2. Identify as Being from their District.** No matter how you are contacting your Congressperson, always start by giving your zip code so the office knows you are in the district. If you do not live in a Member's district, it is best to rally your friends who *do* live in the district rather than calling them yourself. If you need to leave a message, don't hesitate to do so – but don't forget to leave your zip code. As staffers listen to messages, they will tally the yes and no responses from people in the district, and the information will be passed on to the Member. You can fax! Some offices still have fax machines that are rarely used. Sending a fax can be a great way to reach those offices.

**3. Be Specific.** Be as specific as possible about what bill/issue you are referring to and how you want them to vote. Brief is not bad. *"I'm John Smith, a constituent in zip code ----, and I'm calling to ask the Congressman to please vote no on H.R.1"* is perfectly fine.

In most cases, the *reason* you oppose or support a bill is not relevant to your Member. It is all about the numbers. At their best, Congresspeople are trying to represent the voters in their district, but now is not the time, for example, to try to convince your Member *why* they should be pro-life if they aren't. The goal is for enough calls to come in regarding specific legislation that your Member believes could affect the outcome of his next election.

**4. Be Timely.** Your Congressperson's office is fielding so many calls that they have to find a way to prioritize. **Call them when a bill addressing your issue is before the body.**

**5. Be Nice.** Remember that you will be speaking with staff or even an unpaid intern who might not even share the views of the Member. They also may be getting hundreds or thousands of calls. Respect, civility, and even kindness go a long way. People can rise very quickly in congressional offices. The staffer you talk to today might be the Chief of Staff next time you call, and they will remember who was nice to them when they were first starting out. Learn names. Take every opportunity to build a relationship. Being nice is also the best marketing any cause can have! Issues and stances are fairly judged by the people who espouse them. Be a light for your values – and for God.

**6. Say "Thank You."** Don't just call when you are upset. If a member voted how you wanted them to vote, call back to thank them. We often only use the "stick" to try to motivate our Congress people and forget that the "carrot" goes a long way, too!

**7. Remember,** you always can write out what you want to say, and have other paperwork in front of you to use as reference if you need it. Nobody can remember everything. So, if you have bill numbers plus your thoughts and observations in front of you, it helps to make you more able to express yourself and gives you additional confidence. Remember - Congress people work for US!

## STAND UP STAND UP FOR JESUS

By Helen Sanders, Spirit of Life Ministries

The old hymn has probably been sung millions of times in many different languages. "Stand up, Stand up for Jesus." Our Florida Congressman, Greg Steube, stood up in congress and made a statement that our country

has strayed away from what God's standards are in regards to the "equality act" which isn't equality at all. Here is the extent of what happened in that session of congress:

(Quoting from a conservative website) "Democrats, irate that the Florida congressman dared to quote the Word of God on the House floor, unleashed on Steube. Everyone from Rep. Al Green (D-Texas) to Katherine Clark (D-Mass.) shamed him for being transphobic and intolerant.

But it was Congressman Nadler's response that was the most shocking and revealing. 'Mr. Steube,' he said pointedly, 'what any religious tradition describes as God's will is no concern of this Congress.'

In other words take your God and your Bible and leave them out of this.

God's will is no concern of this Congress? Well, His is all that should matter to a Christian.

I thank God for men and women like Greg Steube that has the "guts" to stand up for Jesus and his Word.

How long will it be before God brings His hand of judgment down on Washington D.C. for its stand against God?

Has a stolen election brought us to our knees? Are congressional bills taking away our rights bringing us to our knees? When we take God out of our lives, out of our schools, out of our government, then we will have nothing but chaos. We cannot have it both ways. We ei-

ther make a stand for God or we are standing against Him. We cannot be tolerant of sin.

I would say we all need to rise up as Christians and speak out in our local government meetings to the highest court and make a stand for Jesus while we can. I have been in these meetings and have seen the extreme liberals try to influence the community I live in.

When Israel turned their back on God and His Word, they were taken captive by their enemies and spent 70 years in exile. We have had warning after warning to get right with God from Prophets, to politicians like Steube. We are in a war for Judeo-Christian liberty and the Bible and its principle.

Let's make a stand my friends. Let's take that song into the highways and the byways and turn this country back to God by standing up for Jesus.

## **OIL – BETTER SIT DOWN WHEN YOU READ THIS!!!**

(see link at end of article)

Cruz Construction started a division in North Dakota just 6 months ago. They sent every Kenworth (9 trucks) they had in Alaska to North Dakota and Several drivers. They just bought two new Kenworth's to add to that fleet; one being a Tri Drive tractor and a new 65 ton lowboy to go with it. They also bought two new cranes (one crawler & one rubber tired) for that Invasion.

Dave Cruz said they have moved more rigs in the last 6 months in ND than Cruz Construction moved in Alaska in the last 6 years. Williston is like a gold rush town; they moved one of our 40 man camps down there since there are no rooms available. Unemployment in ND

is the lowest in the nation at 3.4 percent last I Checked. See anything in the national news about how the oil industry is fueling North Dakota's economy?

Here's an astonishing read. Important and verifiable information: About 6 months ago, the writer was watching a news program on oil and one of The Forbes Brothers was the guest.

The host said to Forbes, "I am going to ask you a direct question and I would like a direct answer; how much oil does the U.S. Have in the ground?"

Forbes did not miss a beat, he said, "More than all the Middle East put Together." The U.S. Geological Service issued a report in April 2008 that only Scientists and oil men knew was coming, but man was it big. It was a revised report (hadn't been updated since 1995) on how much oil was In this area of the western 2/3 of North Dakota, western South Dakota, and Extreme eastern Montana

Check THIS out: The Bakken is the largest domestic oil discovery since Alaska's Prudhoe Bay, and has the potential to eliminate all American dependence on foreign oil.

The Energy Information Administration (EIA) estimates it at 503 billion barrels. Even if just 10% of the oil is recoverable (5 Billion barrels), at \$107 a barrel, we're looking at a re-

source base worth more than \$5.3 trillion. "When I first briefed legislators on this, you could practically see their Jaws hit the floor. They had no idea," says Terry Johnson, the Montana Legislature's financial analyzer.

"This sizable find is now the highest-producing onshore oil field found in the past 56 years," reports The Pittsburgh Post Gazette. It's a formation known as the Williston Basin, but is more commonly referred to as the 'Bakken.' It stretches from Northern Montana, through North Dakota and into Canada. For years, U.S. Oil exploration had considered it a dead end. Even 'Big Oil' companies gave up searching for major oil wells decades ago.

However, a recent technological breakthrough has opened up the Bakken's Massive reserves, And we now have access of up to 500 billion barrels. And because this is Light, sweet oil, Those billions of barrels will cost Americans just \$16 PER BARREL!!!!!!

That's enough crude to fully fuel the American economy for 2041 years Straight. And if THAT didn't throw you on the floor, then this next one should - Because it's from 2006 !!!!! U.S. Oil Discovery - Largest Reserve in the World Stansberry Report Online - 4/20/2006 Hidden 1,000 feet beneath the surface of the Rocky Mountains lies the Largest untapped oil reserve in the world. It is more than 2 TRIL-LION barrels.

On August 8, 2005, President Bush mandated its extraction. In three and a half years of high oil prices none has been extracted. With this mother lode of oil why are we still fighting over off-shore Drilling? They reported this stunning news: We have more oil inside our borders, than all the other proven reserves on Earth. Here are the official estimates:

8 times as much oil as Saudi Arabia  
18 times as much oil as Iraq  
21 times as much oil as Kuwait  
22 times as much oil as Iran  
500 times as much oil as Yemen

And it's all right here in the Western United States !!!

HOW can this BE? HOW can we NOT BE extracting this? Because the Environmentalists and others have blocked all efforts to help America become Independent of foreign oil! Again, we are letting a small group of people dictate our lives and our economy. WHY?

James Bartis, lead researcher with the study says we've got more oil in this very compact area than the entire Middle East, more than 2 TRILLION barrels untapped. That's more than all the proven oil reserves of crude oil in the World today, reports The Denver Post.

Don't think 'OPEC' will drop its price even with this find? Think again! It's all about the competitive marketplace, it has to. Think OPEC just might be funding the environmentalists? Got your attention yet?

Now, while you're thinking about it, do this: Pass this along. If you don't take a little time to do this, then you should stifle yourself the next time you complain about gas prices, by doing NOTHING, you forfeit your right to complain. Now I just wonder what would happen in this country if every one of you sent this to everyone in your address book. By the way, this can be verified. Check it out at the link below!

## CALIFORNIA..... Largest Open Air Insane Asylum in the World

Interesting that the LA Times did this. All the others are staying away from it. Whether you are a Democrat or Republican, this should be of great interest to you. Just One State - be sure and read the last part.. T Again, this is only one State ... If this doesn't open your eyes, nothing will!

### From the LA. Times:

- 1 - **40% of all workers** in LA County (10.2 million people) are working for cash; and not paying taxes. This is because they are predominantly illegal immigrants, working without a green card. (**Donald Trump was right**)
- 2 - **95% of warrants** for murder in Los Angeles are for illegal aliens.
- 3 - **75% of people** on the most wanted list in Los Angeles are illegal aliens.
- 4 - **Over 2/3 of all births** in Los Angeles County are to illegal alien Mexicans on Medi-Cal, whose births were paid for by taxpayers.
- 5 - **Nearly 35% of all inmates** in California detention centers are Mexican nationals; they are here illegally.

- 6 - **Over 300,000 illegal aliens** in Los Angeles County are living in garages.
- 7 - **The FBI reports** half of all gang members in Los Angeles are most likely illegal aliens from south of the border.
- 8 - **Nearly 60% of all occupants** of HUD properties are illegal.
- 9 - **21 radio stations** in LA are Spanish-speaking.
- 10 - In LA County, **5.1 million people speak English; 3.9 million, speak Spanish**. (There are 10.2 million people, in LA County.)

**All 10 of the above facts were published in the Los AngelesTimes.**

**Less than 2%** of illegal aliens are picking our crops, but 29% are on welfare.

**Over 70%** of the United States' annual population growth, (and **over 90%** of California, Florida, and New York), results from immigration.

Also, **29% of inmates in federal prisons are illegal aliens.**

We are fools for letting this continue.

HOW CAN YOU HELP?

Send copies of this letter, to at least two other people. To 100, would be even better.

**This is only one State... If this doesn't open your eyes nothing will, and you wonder why NANCY PELOSI wants them to become voters!**

WHERE DO WE GET THESE MORONS?

**Windfall Tax on Retirement Income ... Adding a tax to your retirement is simply another way of saying to the American people "you're so darn stupid that we're going to keep doing this until we drain every cent**

from you."Nancy Pelosi wants a Windfall Tax on Retirement Income. In other words, tax what you have made by investing toward your retirement. This woman is a nut case! You aren't going to believe this.

Nancy Pelosi wants to put a Windfall Tax on all stock market profits (including Retirement fund, 401K and Mutual Funds)!

Alas, it is true - all to help the 12 Million (only 12 million?) Illegal Immigrants and other unemployed Minorities!

This woman is frightening. She quotes, 'We need to work toward the goal of equalizing income, (didn't Marx, who was a racist in the true meaning of the word, say something like this?) in our country; and at the same time limiting the amount the rich can invest.

When asked how these new tax dollars would be spent, she replied: "We need to raise the standard of living of our poor, unemployed and minorities. For example, we have an estimated 12 million illegal immigrants in our country who need our help along with millions of unemployed minorities. Stock market windfall profits taxes could go a long way to guarantee these people the standard of living they would like to have as Americans.

(Read that quote again and again and let it sink in.) 'Lower your retirement; give it to others who have not worked, as you have' for your money.

## CLIMATE CHANGE BRIEF

By Karen Schoen - Applying Knowledge is Power

Students no longer learn science. They learn environmental justice, whatever that is.

Simple Tips for your kids and grand-kids, from my days teaching science:

1. Cold soda contains CO<sub>2</sub>, You can read it on the label. As the soda warms the CO<sub>2</sub> is released until warm soda is flat (no CO<sub>2</sub>). Therefore, CO<sub>2</sub> is released as a result of warming and cannot be the cause of warming.

2. Remember communists want depopulation - less people to control.

No CO<sub>2</sub>, then plants will not produce food. No food, no people. "No people no problems." J Stalin

Mission accomplished. He who controls the food controls the people.

3. When a report on data came out about 2018 being the hottest year on record, I called the FSU author. I asked for the data from 1818. He told me his data only went back 150 years. I then ask how old was the earth. I got silence.

4. At beginning of class, I put a glass of ice and water on my desk. I colored the water and put a line on the water level. I asked how many think the water will overflow the glass

when the ice melts. They were shocked to find the water level remained the same.

At a news conference in Brussels in 2015, Christiana Figueres, Executive Secretary of the U.N.'s Framework Convention on Climate Change, admitted that the goal of environmental activists is not to save the world from ecological calamity but to destroy capitalism.

"This is the first time in the history of mankind that we are setting ourselves the task of intentionally, within a defined period of time, to change the economic development model that has been reigning for at least 150 years, since the Industrial Revolution," she said.

## Letters to the Editor

The Left or Liberals in our country claim that most Americans have "evolved" in our views of laws, morality, history, equality in status, rights, and opportunities. Our framers composed a document promising to give us Justice, Tranquility, general Welfare, and Blessings of Liberty. However, there are those who believe our Constitution is a "living document" that "evolves" as times and situations change. Laws and justice are not equal even though our framers promised it.

Morality has "evolved". In the past the majority believed "In the beginning God: in the image of God, He created him; male and female He created them." Today many think they can change their sex in a thought and even allow children to make this decision. If a male decides he really is a girl, he has the "right" to play on girls' sports teams, which obliterates fairness. The history of our flag was the rallying point and symbol of our pride in the pre-

scious freedom we in America we once enjoyed.

The emblem that stood for the millions of patriotic Americans that shed their blood to protect our freedom. Our blood bought flag at this time is just a piece of cloth that haters spit on, to throw in our face to show how much they hate America, law and the goodness of the place they call home. Civil rights now stand for “I can do what I want to do and don’t tell me I can’t. I have the right to free health care and free student tuition and can even to burn the flag if I want too.” The 1776 Commission emphasized America is basic “patriotic education”. “Teaching students, the magnificent truth about our country. That our children would know they are citizens of the most exceptional nation in the world.” The Biden administration says it is “counter factual”.

While The 1619 Project is blotting out true democracy, introducing racism and a “woke” generation. The result of dumbing yhe down teaching of American history in lieu of pointless subjects being taught in our colleges: “a degree in Yeti Hunting or Tree Climbing, Lady Gaga. See for yourself; Google “20 Most Ridiculous College Courses You Won’t Believe”. Call those in Congress (202) 224-3121, get on their websites. Speak up, stand up! Our America is being sucked down into oblivion. Thank those who have not evolved after they got elected. *Betty Hendsbee*

## **Arizona State Senate Orders Hand Recount of 2.1 Million Ballots From 2020 Presidential Election**

PHOENIX (AP) — Republicans who control the Arizona Senate announced Thursday they now intend to do a complete recount of 2.1 million ballots in the state’s most populous county to ensure that President Joe Biden's November win was legitimate.

Senate President Karen Fann had been pushing for a “full forensic audit” of Maricopa County's election result and won a court order on Feb. 26 granting the Senate access to the ballots and tabulation machines. But she had never acknowledged until this week that she wanted a full recount, something state law doesn't allow except in narrow circumstances.

Previous documents obtained by The Associated Press showed Fann intended to recount “at least” 550,000 ballots.

The county Board of Supervisors had argued the ballots were secret and the machines need to remain secure and fought a subpoena issued by Senate Republicans.

Since winning that court fight, Fann has been trying to locate an auditing firm that can do the deep dive she wants. Some Republican backers of former President Donald Trump allege there was fraud in the election in Arizona and other battleground states that led to his defeat. Fann said she

wants to answer their questions one way or the other.

Fann announced Thursday that she had decided on a specific firm to oversee the audit but did not reveal its name, saying she was still negotiating final details.

She had previously been considering a company with deep ties to Trump's campaign but said last month that it was no longer being considered. The Allied Security Operations Group worked with Trump attorney Rudy Giuliani to raise baseless allegations of election fraud and counting errors in Arizona and other states.

Fann's announcement said she now intends to do a full hand recount of the ballots in addition to testing the tabulation machines and rescanning all the ballots. She said she hopes to do the work at county buildings to ensure ballot security.

But county spokesman Fields Moseley said the county hasn't had any recent discussions about allowing the Senate to use its facilities for its new audit. Early this month, Board Chair Jack Sellers sent a letter to Fann and other GOP senators asking where she wanted the ballots delivered. The Senate said it had no room for them and hoped to use county facilities.

A full hand-recount will be challenging because it will require scores of people and observers if Fann is to end up with a trusted product.

She said she hopes the effort is bipartisan, but Senate Democrats said that is laughable.

“We never wanted anything to do with that,” said Sen. Lupe Contreras, the assistant minority leader. “I guess you could say we worked in a bipartisan way, since we backed the Board of Supervisors, which is all Republican but one,” Contreras said.

The five-member county Board of Supervisors has pointed to repeated checks that showed the election was free, fair and properly conducted. They included pre- and post-election tests of counting equipment and software and a hand count of a ballot sample that showed the machine count was accurate.

Last month, they released results of two new audits of their equipment to mollify the Senate. They showed no malicious software or incorrect counting equipment and that none of the computers or equipment was connected to the internet.

“When all the work is done, there will be a full report for the Senate and County to review,” Fann said in a statement. “Our voters expect this audit, and it can be a big step in returning trust and confidence in our election process.”

Support the US, Stop **Forced Organ Harvesting** Bill of 2021 (bipartisan).

*In 2019 the China Tribunal, an independent international people's tribunal chaired by Sir Geoffrey Nice QC, lead prosecutor of Slobodan Milosević at the International Criminal Tribunal for the Former Yugoslavia (ICTY), assessed all available evidence regarding forced organ harvesting from prisoners of conscience in China. The Tribunal held public hearings where over 50 witnesses testified. Huge volumes of written evidence were analysed, including research showing the deliberate falsification of China's public organ donation data that helped the CCP to cover-up the killing of innocent people, primarily peaceful Falun Gong practitioners, to support a lucrative trade in human organs.*
