RESOURCE PLANNING & FIELD COORDINATION

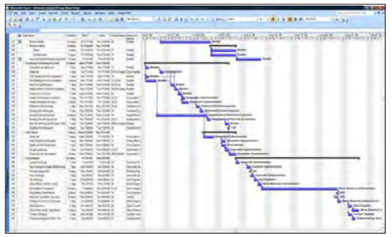

For Electrical Contractors

Labor and Equipment are the largest costs on construction projects.

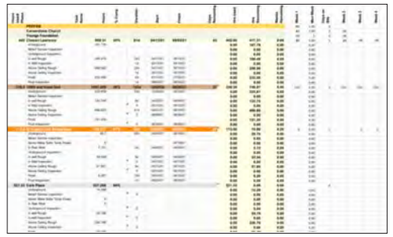

Imagine making an impact of 5% on those costs by increasing work productivity, reducing communication errors and ensuring the right resources are at the right place at the right time.

Tomorrow with RIVET

The RIVET platform can help you eliminate the manual, administrative costs hiding in your labor and assets spend with digital tools for Scheduling, Forecasting and Dispatch.

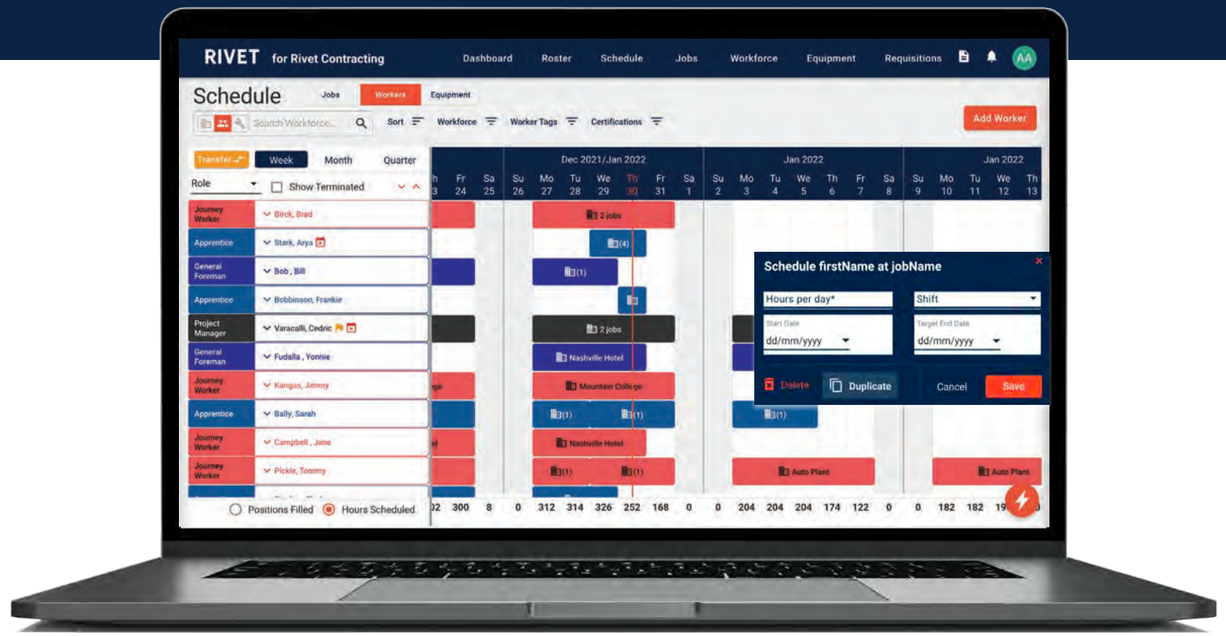

By importing your spreadsheets, **Rivet can bring your full lifecycle of resource planning and tracking online** with:

- **Automated, Predictive Scheduling** tools to proactively forecast your resources
- **Job Rosters** with automated Transfering and Dispatch tools
- **Filters and Tags** for Skills, Certifications, Availability and Worker Profiles
- **Pre-populated Dispatch templates** for crews, field leaders and project teams
- **Tool & Equipment** Inventory Management, Requisitions, Dispatch and Scheduling

COMING SOON: Labor Cost Tracking, Time Tracking, Digital Assistant with alerts and reminders.

PLAN & FORECAST

With RIVET's Schedule tools

Transform your spreadsheets and whiteboards

Display your jobs, workforce and equipment on **timeline gantt charts**. Use smart filters and custom display groups for specific views — by job status, by role, by location, by project manager and more.

Forecast and plan

More easily plan and forecast your labor power needs with RIVET's **Positions Forecasted** and **Hours Planned** tools. Gain insights into who is available for work, where you need to perform job calls and track hours to ensure your project is on track.

Schedule and assign

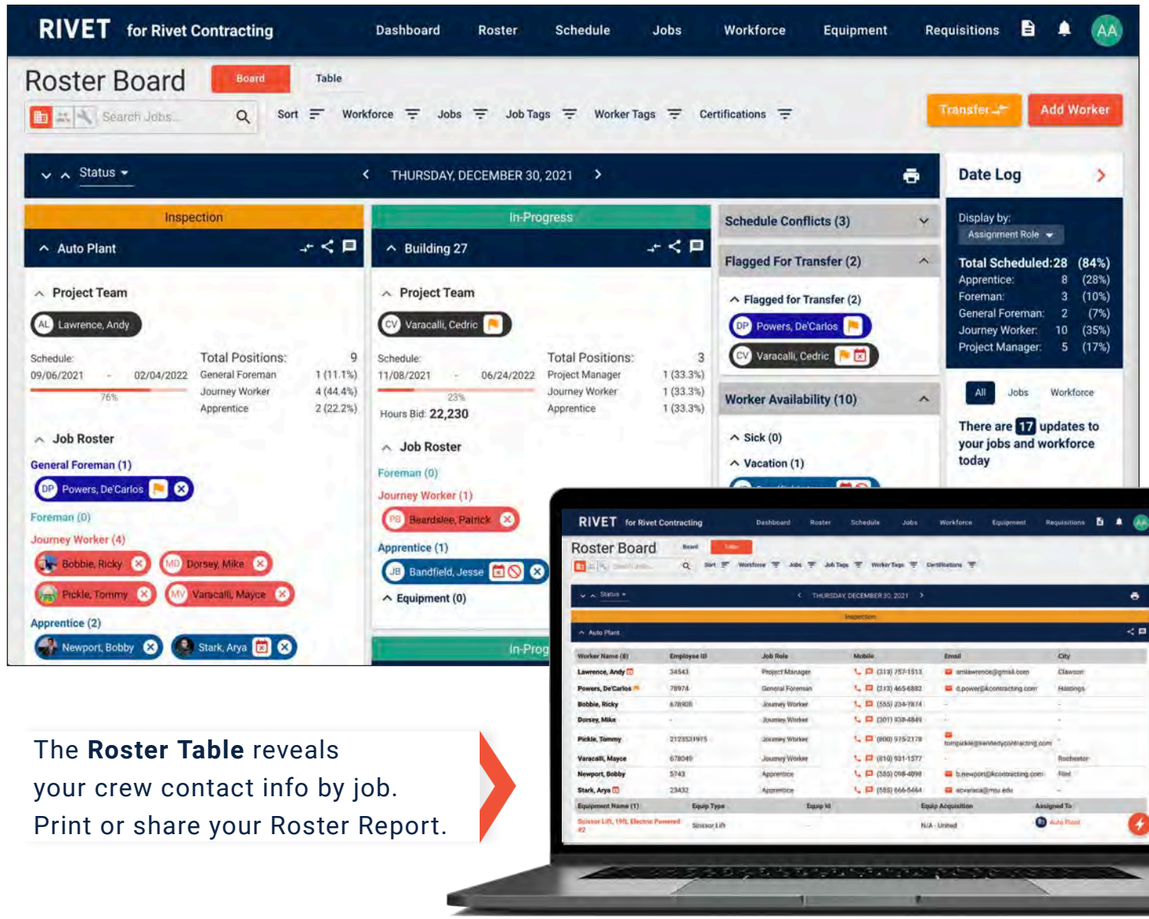

Quickly assign and schedule workers and equipment to jobs with **simple click-and-drag** functionality. Make changes on the fly, from any device, in the office or remotely. Make quick work of it all by batching assignments in bulk.

DAILY CREWS & TRANSFERS

With RIVET's Roster tools

View all of today, as a Board or a Report

Know where all of your jobs, workers and equipment are on any given day. View quick stats of scheduled positions and job schedule progress. Quickly identify which resources are available for use, then transfer them with a click of a button. Your actions tracked in the Date Log transform into sharable reports or pre-populated Dispatch templates.

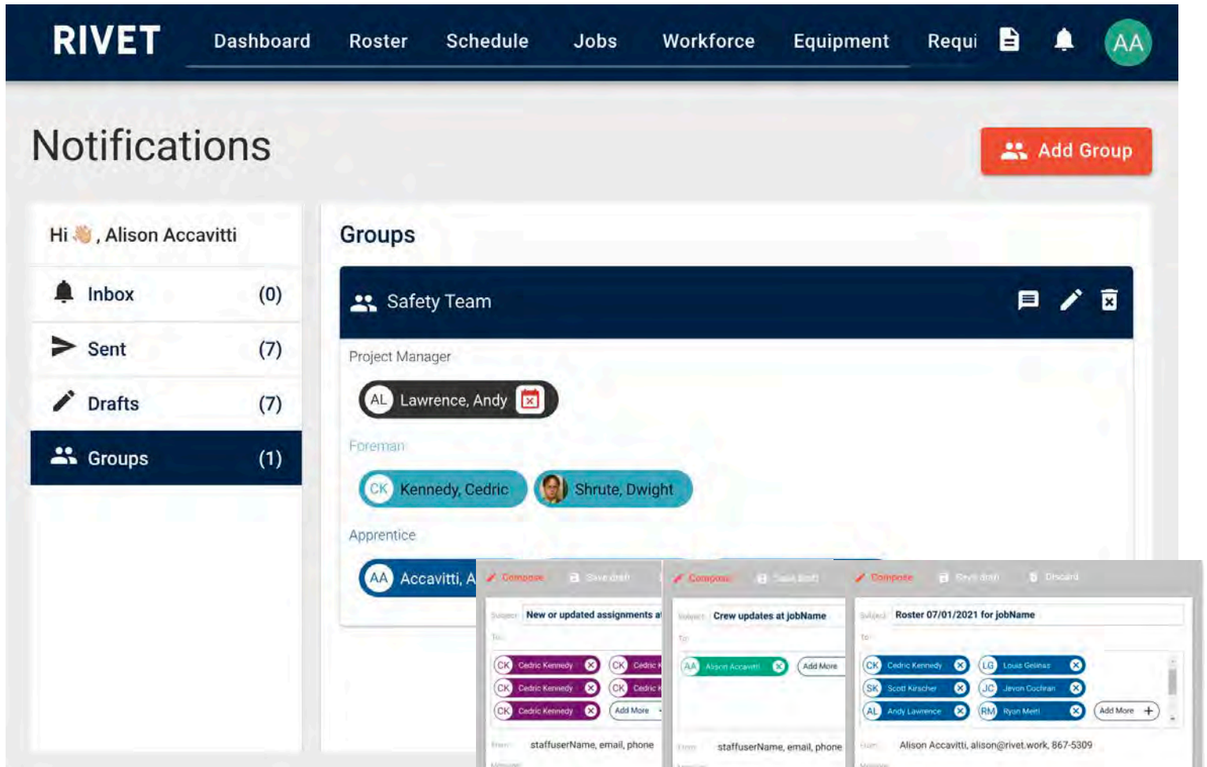

The **Roster Table** reveals your crew contact info by job. Print or share your Roster Report.

COMMUNICATE WITH THE FIELD, FAST

With RIVET's Dispatch tools

Send and store messages to anyone in your organization.

With RIVET's Notification Center, staff users can **send SMS and email messages to anyone**. Access your received messages in your inbox, and store your sent messages in your sent folder. **Create custom message groups** for fast bulk distribution.

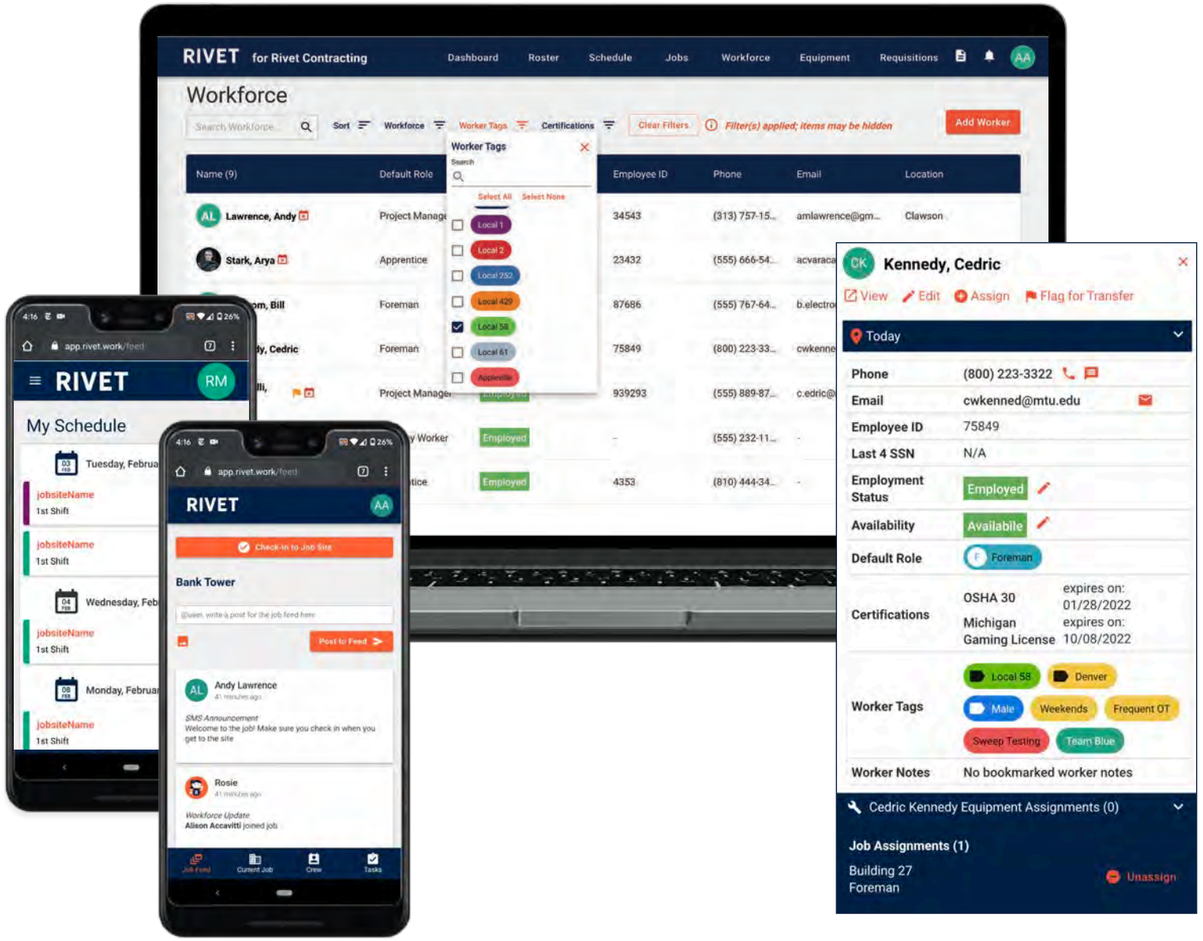

Send pre-populated and editable Dispatches from the Roster Board to crews, field leaders or the back office.

WORKFORCE MANAGEMENT

With RIVET's Workforce tools

Your greatest assets are your people, and RIVET helps ensure you're getting the most out of your workforce.

Build **Worker Profiles** that **track job history, skills, certifications and worker notes**, then use RIVET for Dispatch notifications to the field. Enable workers to check their schedules and access important job information.

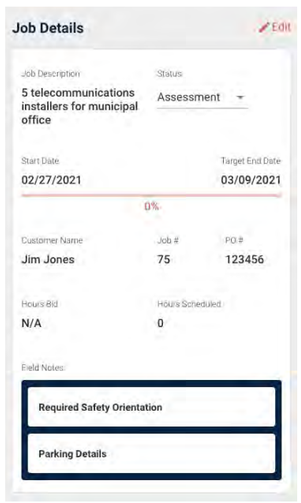

JOBS MANAGEMENT

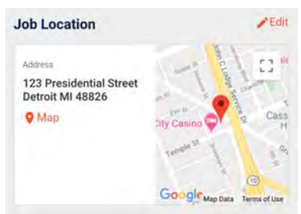

With Rivet's Job Tools

Give every job a home page.

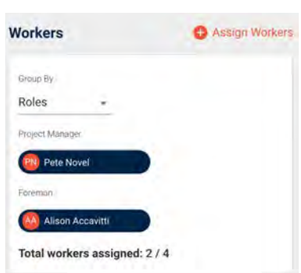

Every job created in RIVET creates a Job Home Page, a place where relevant staff and workers can **view all critical details, communicate and manage tasks.**

View **Job Details**, status and timeline.

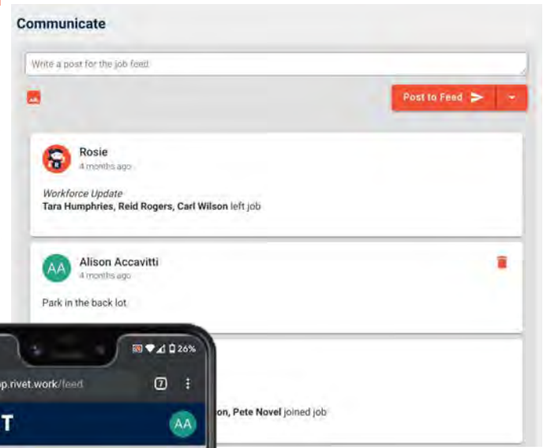

View **Location** and map directions.

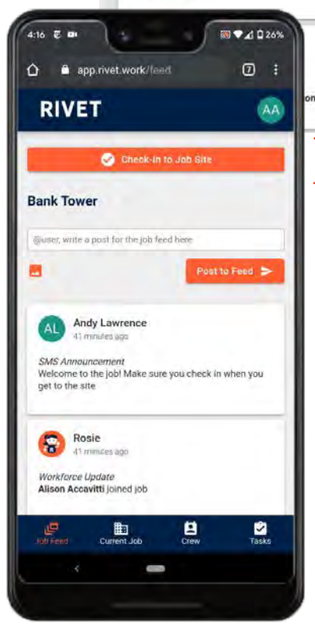

View **Assigned Crew** by role or attendance.

Use the **Job Feed** to post updates, upload photos and send SMS text notifications to your crews.

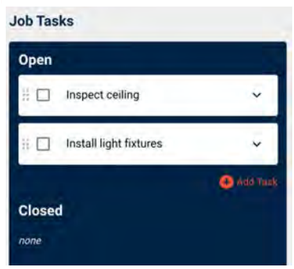

Rosie from Rivet tracks changes and attendance.

Add **Field Notes** with rich text formatting.

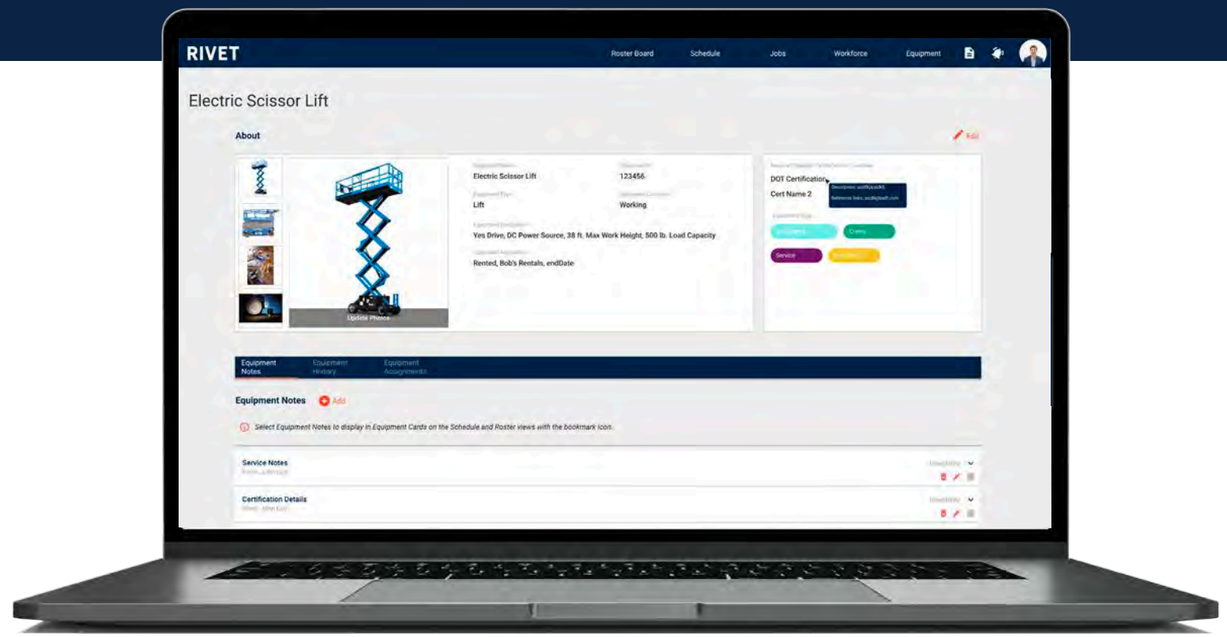

Workers can **Check In** to the job site upon arrival.

Use **Job Tasks** to manage to-do lists.

ASSIGN, DISPATCH & INVENTORY

With RIVET's Equipment Scheduling

Transform your inventory into Equipment Profiles, just like your workforce.

View your equipment and tools inventory as a list, gantt or roster with quick access to service and assignment history. Add Warehouse or Tool Crib Managers as staff-level accounts for the ability to request new or reassigned equipment.

Assign Equipment directly to jobsites, vehicles or workers.

Build schedules and dispatch instructions for clear direction on where everything is. Equipment can be scheduled to multiple people or multiple jobs allowing you to forecast.

Group assignments to create kits or build tool boxes.

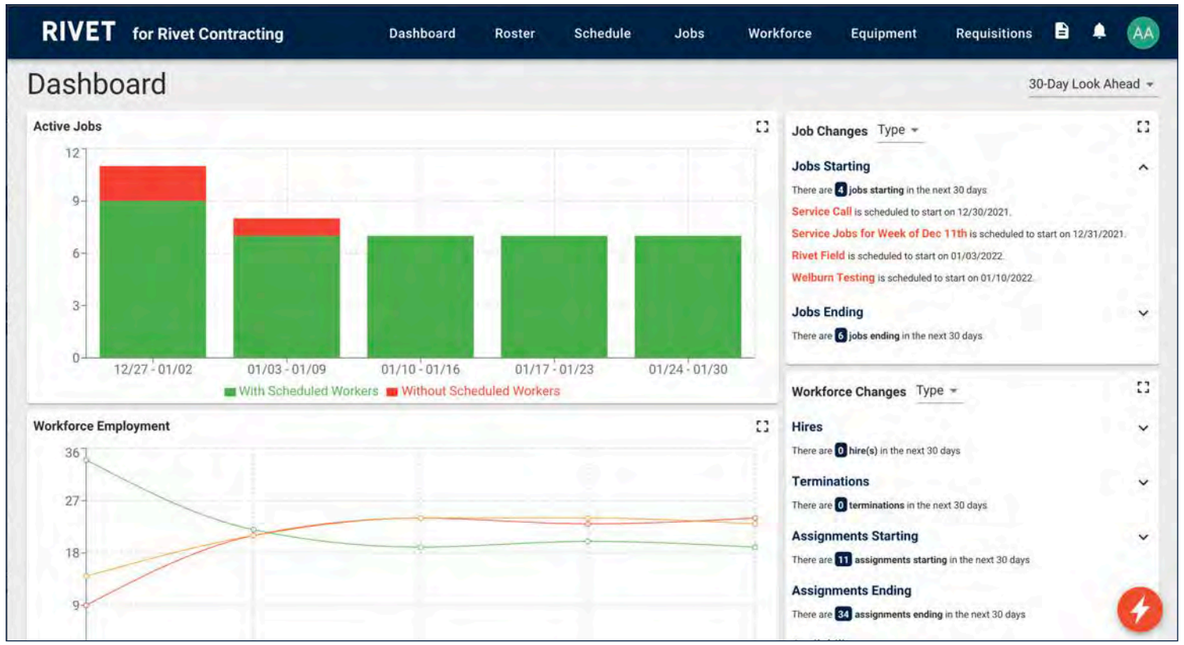

Assign the battery to the impact wrench, then assign the impact wrench to a toolbox. Then assign the toolbox to the truck. Now assign the truck to Jimmy.

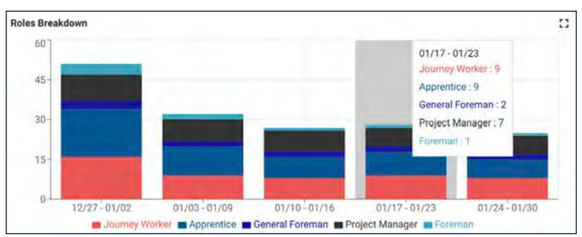

GET A BIG PICTURE VIEW

With RIVET's Dashboard

Monitor your labor and equipment utilization in real time.

With the RIVET Dashboard, You're warned of the encroaching threshold – being short-handed or going over bid on your project. You're confident you're balancing productivity and costs. You know you're clear to add more resources to stay on schedule. **Not only does RIVET have you covered, we've got you saving costs and adding more jobs, so you can grow your business.**

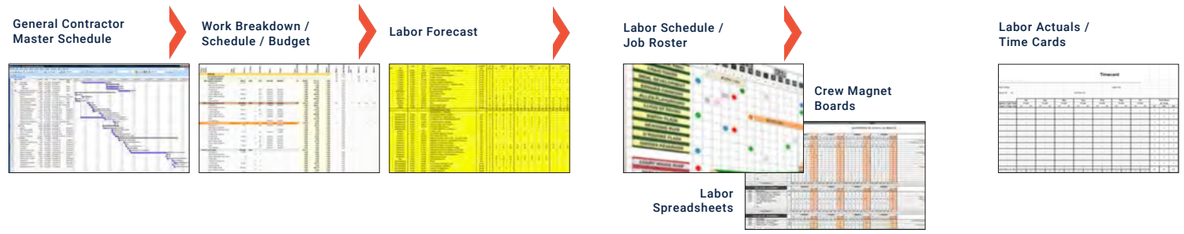

DIGITAL TRANSFORMATION

Bring your resources online

Position your company for profitable growth.

Every contractor RIVET supports has more work than they can execute on. **The RIVET platform helps you find more skilled workers while creating efficiencies in you operations**. Younger generations have expectations for using digital tools at work. Transition your processes online to improve communication, efficiency, productivity and safety.

Keep your current processes, but ditch the inefficiencies.

Your current disconnected systems and spreadsheets result in lost communication, too many or too few workers on jobs, outdated worker information (expiring certifications, drug screenings), and long drawn-out manpower meetings to keep track of it all.

Bring your full lifecycle of resources planning and tracking online.

It's amazing what software can do. Get better connected to your teams, evaluate data dashboards to monitor costs and progress. Requests for labor and equipment can be done directly in the app. Get real-time updates from your jobsites from any device.

Embrace digital tools with a truly easy-to-use application.

You don't need to be tech-savvy to get started. RIVET provides white glove service and support. We build custom training guides that match and pinpoint your workflows. We're always readily available anytime to support you. Let's get started!
